

TO URGE MILLION FOR THE COLORADO

President Will Send Special Message to Congress.

Agrees With Findings of the Board of Conference.

Text of Report Filed With Secretary Fisher.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, June 7.—[Exclusive Dispatch.] The President today received the unanimous report of the conference of engineers on the Colorado River, gave their conclusions his approval and said he would send a special message to Congress as soon as it could be prepared, urging that \$1,000,000 be appropriated to continue the work on the levees.

Secretary of the Interior Fisher submitted the report of the conference, which was participated in by Gen. W. L. Marshall, formerly Chief of Engineers of the army, Gen. G. H. Otis, president of the Colorado River Land Company; Col. J. A. Ockerson of St. Louis; C. E. Grunsky of San Francisco; J. H. Lippincott, engineer of the Los Angeles water system; J. H. Newell, director of the Reclamation Service; James Randolph, president of the Southern Pacific lines in Mexico, was present.

REPORT OF COMMISSION.
The report of the commission which answers a series of questions propounded by the Secretary of the Interior is as follows:

1.—A breach in the west bank of the Colorado River, if made at or within a mile south of the California boundary or north of mile 18, below Yuma bridge, will result in water flowing directly into the drainage areas of the Colorado and New Rivers and thence into the Gulf of California, which would be disastrous to property in the United States.

2.—A breach in the river bank at any point between miles 18 and 25, below Yuma bridge, will result in spreading water over the Delta of the Colorado River, which will flow into New River via Volcano Lake, menacing Imperial Valley.

3.—(a) The best practical method for the protection of lands and property in the United States against a discharge directly into the Imperial Canal and thence through Imperial Valley into the Gulf of California is to maintain the levees as at present located for a distance of at least ten miles south of the California boundary and to hold the river by adequate bank revetment practically on its present alignment. (b) This levee if extended to a point opposite the mouth of boundary of Arizona, or about mile 27, will also prevent a discharge directly into the Colorado.

PRECAUTIONARY WORK.
4.—(a) As a remedial or precautionary work to prevent damage which might result from a crevasse directly into Imperial Canal or Colorado River, we have considered a secondary levee west of the river levees across Imperial Canal and large channels leading to the natural depressions or diversions south of the river, water southwesterly into channels leading into Volcano Lake, but it is believed that the cost of any such secondary defense could be better expended in maintaining the main line of defense at the river. (b) As a necessary defense against the northern flow of any water reaching Volcano Lake, whatever be the treatment of the lower Colorado River, there should be an embankment well projected against wave wash on its slopes, constructed about on the line of the levees already built extending from high ground north of Volcano Lake to a connection with the levee already built by the Colorado Development Company, southwesterly, toward this region from the Colorado River. The end of this embankment should be at its western end be not less than ten feet higher than the rim land at Volcano Lake. This embankment is an essential requisite as a protection of Imperial Valley against menade from the south, and should be constructed without delay.

5.—(a) The construction of the works constructed in 1906 and 1907, closing the breaks of the Colorado into the Colorado and the maintenance of these and of the levees below the breaks as far south as the head of the Abasco are essential requirements. Suitable arrangements for their repair and maintenance should be made with Mexico through the proper authorities. We do not consider the immediate closure of the breaks into the Colorado and the reconstruction of the levees below the breaks essential to the protection of property in the United States. The ultimate treatment of this section of the Colorado River in co-operation with Mexico may well be determined by negotiations between the governments of the two countries. (b) Provided the water of the Colorado is discharged into the Gulf of California through the Imperial Canal, there is little probability of the cut back affecting the Sacramento. Such cut back will not seriously affect the heading of the Imperial Canal, or levees adjacent thereto, with a possible exception of requiring the lowering of the intake of the Imperial Canal a few feet. This is not a serious matter, and is one that should be dealt with by the California Development Company when necessary. The diversion by the California Development Company should be facilitated during low water stages by dredging, or by lowering the sill of its intake, rather than by placing obstructions in the channel of the river below the intake.

EXISTING EMERGENCIES.
In view of the existing emergencies along the Colorado River, arrangements should be made with the government of Mexico to provide for the early creation of an international Colorado River Commission, embracing in its membership both American and Mexican engineers, invested with large powers and ample authority to examine into and to submit a basis for the adjustment of all questions relating to the conservation, use and control of the waters of the Colorado River with a view to the international action as shall result in a complete, just and final settlement of all such matters as issue between the two nations. We recommend that further work should be undertaken at once and in approximately the following order:

(a) The levees north of Volcano

Lake should be raised, strengthened and extended.
(b) The existing levees along the west bank of the Colorado River to the Abasco should be repaired and protected. For this purpose and to meet emergencies, there should be immediately available the sum of at least \$1,000,000. This sum provides only for the necessary maintenance of levees and does not include the banks, the conference ventures to systematic reclamation of the river suggest certain international questions which are involved and which will inevitably have to be met sooner or later.

The matter of the permanent protection of existing works on both sides of the international boundary line the construction of further levees and the conditions under which the present and future projects may be carried out on Mexican soil with the consent and cooperation of the government of Mexico for the benefit of both countries to the end that the practicable quantity of water of the Colorado River may be made available for irrigation by means of the levees, and otherwise and the least possible quantity be permitted to flow unused to the sea and to what extent the levees should be made chargeable to the property owners and to what extent chargeable to either government.

PERMANENT AGREEMENT.
(b) That permanent agreements with the government of Mexico shall be entered into having in view the just apportionment of the waters between the two countries, irrigation to be paramount to navigation.

(c) The method by which either nation may acquire rights of navigation, canals, levees, and related works each within the territory of the other and the authority to maintain such works.

The boundary line between the United States and Mexico with a view to facilitating the solution of the entire Colorado River problem. An authoritative, just and final determination of this important question, now a matter of public discussion, will have the effect of removing existing doubts in the public mind and of settling the matter for the benefit of all concerned. The members of the conference desire to call attention to the fact that the plan and execution of the work accomplished during 1911 followed well established principles of good engineering. That so large an amount was accomplished in so brief a space of time, under adverse circumstances, is worthy of the highest commendation. That the restoration of the Colorado River to its former channel was not realized is chargeable to the delay in the negotiations, which prevented prompt investigation of the work and its execution during the low water season and also to the disturbed political situation and strike which demoralized the workers.

The members of the conference, in addition to the conclusions above reached, present also a statement of physical and related facts embodied in an abstract of the data available and largely in the reports of J. A. Ockerson and of C. E. Grunsky, also in the printed hearings before a subcommittee of the Senate Committee on Claims, referring to Senate 4170, January 21, 1909.

CONCESSIONS ABOLISHED.
President of Nicaragua Makes Move Calculated to Bring Lasting Peace Into the Republic.

(ASSOCIATED PRESS NIGHT REPORT.)
BLUEFIELDS (Nicaragua) June 3 (via New Orleans, June 7).—Following the promulgation last week of the decree abolishing the so-called "monopolistic concessions" granted to foreigners on the north coast of Nicaragua by the Zelaya government, the Nicaraguan government has issued a statement regarding the former-runner of contentment and property. President Adolfo Diaz today issued a statement regarding the former-runner of contentment and property. President Adolfo Diaz today issued a statement regarding the former-runner of contentment and property.

HOW WE ARE BUILDING.
Chicago Publication Shows Los Angeles Increase for Past Month. Brickmakers Strike a Drawback.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, June 7.—[Exclusive Dispatch.] Building operations in Los Angeles increased 5 per cent. in May, 1911, as compared with the same month last year, according to statistics compiled by the American Contractor.
In May, 1910, the value of buildings erected was \$1,811,160, while during the same month of this year the cost was \$1,945,429, or an increase of 7.4 per cent. Reports from seventy-five cities in the United States show a decrease in the aggregate of 9 per cent. The brickmakers' strike in Chicago is responsible for the loss of several million dollars worth of new construction work the past month. Eighteen cities show a loss from 2 to 65 per cent; and twenty-seven show gains of from 3 to 311 per cent. Evansville, Ind., leads the country with the latter figure.

BEWARE OF WINNIPEG.
Americans May Unfold Their Flag There Only When Accompanied by the Union Jack.

(BY DIRECT WIRE TO THE TIMES.)
WINNIPEG (Can.) June 7.—[Exclusive Dispatch.] Many frequent have been the sightings of Canadian and British flags offered in Winnipeg, principally by Americans from across the line, who promiscuously display American ensigns. Another specific case of this nature was reported to the city council today and the patriotic nature of the board soon asserted itself.
Instructions were immediately issued that the license department should impress upon all theater managers the importance of properly regulating the matter of the flag.

By far the greatest number of companies, actors and actresses visiting the city are neither Canadian nor British, yet the authorities fail to see any reason for slighting the flag of this country and an order was issued that if they would display their own banners they must also show their respect for the Union Jack and Canadian flags to the fore.

RECIPROCITY AFLOAT.
DETROIT, June 7.—Reciprocity with Canada was the slogan of the 600 excursionists who left Detroit on the steamer City of Cleveland this afternoon on the annual cruise of the Detroit Board of Commerce. Secretary of Agriculture Wilson was the guest of honor, and made his address on reciprocity this evening while the steamer was on Lake Huron.

QUAKE IN MEXICO CITY.

(Continued from First Page.)

down through the floor on their comrades below. The bodies of thirty soldiers have been recovered. Three in a missing and sixteen were wounded in a few dangerously. Those who escaped began the work of rescue at once. Women whose soldier husbands were in the pile, waited and clung to their dresses and started cursing at the scene.

Amidst the wreckage the wounded were carried to the dead to Dolores Cemetery. Three blocks from the barracks station, on the Mexican Central station, at which Mexican troops were scheduled to enter, presented another spectacle of the shock's intensity. A Mexican locomotive engineer was lying on his back, crushed to death. A warehouse of the Mexican Central is almost a wreck, one wall and a portion of the building having collapsed. About one hundred of the warehouse was torn down. No casualties were reported.

FURY OF THE SHOCK.
The fury of the shock was spent in the northwestern and western parts of the city. The greatest damage was done in the quarter known as Santa Maria, although cracks in the pavement and walls toppled over some of the houses. In this district, however, little damage was done and no deaths have been reported. The shock here and there in the pavement through the streets, and now and then the ridge of a soft stone, or even of adobe bricks, have fallen in scores of places. The houses of the city were practically unharmed. An automobile and power companies suffered little inconvenience. Some slight damage was done to the street car tracks, interfering with traffic in one line.

In front of the Mexican Central station, the track was twisted enough to delay operations for a few hours.

DAMAGES ELSEWHERE.
The protection of the front wall of Belon Prison was thrown into the street. No great damage was done. A long crack reaching from bottom to top was also made in the edge of the front wall of the building. Two of the capital old churches and the national palace are buildings which show the effects of the shock. In the palace a keystone in one of the arches was blown away and the most entirely out of place. The two churches are Santo Domingo and La Profesa, the latter on San Francisco street.

The morning the cracks were widened and the building was ordered closed.

Three schools sustained considerable damage, but in none was there loss of life.

Dispatches received tonight from Chihuahua, the capital of Guerrero indicate that the earthquake did less damage in that State than it did in the capital.

PEACE DOVE RESTS THERE.
Investigation of U.S. Law School Charges and Counter Charges Resubmitted in View of Election.

After an all-day and evening session yesterday of the executive board of the University of Southern California, which school, Thomas McDonald, who is charged with irregular proceedings, was completely vindicated. Dean Frank M. Porter of the school took part in the investigation.
The strained feeling which had arisen between the students of the Delta Chi and the Phi Delta Phi fraternities is now at an end and the dove of peace once more roosts serenely at the college.

WITHDRAW U. S. TROOPS.
President Taft Satisfied That Law and Order Have Again Been Established in Mexico.

(ASSOCIATED PRESS NIGHT REPORT.)
WASHINGTON, June 7.—Evidence of President Taft's belief that peace has been practically restored in Mexico with a government capable of coping with the situation, the withdrawal of degrees of the armed forces from the borders of Mexico began today.

The order applies to marines at Guantanamo, Cuba, who will return to their home stations and ships. This will be followed very shortly by the withdrawal of the soldiers from the northern border of Lower California, where they are being attacked within ten days by a large force of troops under Col. Juan Cabral, the insurgent leader, was the statement made today by Capt. Zarza of the Mexican army, who is here on leave of absence to look after business interests.

Capt. Zarza said today that 1000 soldiers under Cabral—old veterans of the Sonora campaign—were marching westward from Cananea to the Southern Pacific Railroad, where they would take trains for Guzman. At the latter port they will embark for the point on the Lower California coast.

Capt. Zarza is authority for the statement that Madero has ordered that the Anti-revolutionary Club, and the liberals at whatever cost, and that if the latter offer resistance a battle may be expected in the vicinity of Tijuana within a few days.

BRYAN'S DAUGHTER WEDS.
Young Business Man of Nebraska Capital Wins Hand of Silver-Tongued Orator's Youngest.

(ASSOCIATED PRESS NIGHT REPORT.)
LINCOLN (Nebr.) June 7.—Miss Bryan, youngest daughter of Mr. and Mrs. William Jennings Bryan, and Richard Lewis Hargreaves, a young business man of Fairview, the Bryan suburban home, were married today at a ceremony at which nearly a hundred relatives and friends of the two families.

The ceremony was performed by Rev. Harry F. Huntington of Crete, Neb. The bride was attended by Miss Lily Tyler of East Bradford, Va., daughter of former Governor Tyler of Virginia, and by Miss Helen Schwind of Lincoln. William J. Bryan, Jr., was best man.

The bride was given away by her father. Her gown was of white satin, with an elaborate design of roses and lilies of the valley.

Mr. and Mrs. Hargreaves left shortly after the ceremony for a wedding tour, which will occupy a month. Their home for the summer and fall will be at Fairview.

BIND AND GAG CASHIER.
Two Robbers in Utah Town Get Nine Thousand Dollars Cash and Escape With It.

(ASSOCIATED PRESS NIGHT REPORT.)
TOOELE (Utah) June 7.—After binding and gagging S. I. Shaffer, cashier of the Tooele Commercial Bank at 5 o'clock this evening, two robbers mounted horses and fled to the hills with \$9000 of the bank's money.

Several posses are hunting the bandits.
Shaffer was alone in the bank and was not discovered for an hour.

SECRET SERVICE MEN ARREST PLOTTERS.

United States Agents Take Four on Texas Soil.

Hope to Thwart Extension of Magon Conspiracy.

Confiscate Rifles and Supply of Ammunition.

(ASSOCIATED PRESS NIGHT REPORT.)

EL PASO, June 7.—Four men alleged to be members of the revolutionary forces in Lower California and recognizing Ricardo Flores Magon as their head, were arrested by United States secret service officers in El Paso today. With them were captured supplies of rifles, ammunition, bandages and hospital equipment which had been stored in a vacant house, long deserted by its owner.

The arrests followed closely upon the announcement of Mexican officials in Juarez that plotters were at work to create a widespread anti-Madero movement out of the dissatisfaction in Lower California.

BERTHOLD'S NAME ON GUN.
One of the rifles captured contained an inscription "to Simon Berthold, Los Angeles Cal."

Berthold was one of the leaders of the Lower California movement. He died several months ago of wounds received while fighting.

Telegrams had been sent to Mexico City early in the day advising Madero to investigate closely the loyalty of the Federal troops in the border.

TO ATTACK MAGONISTOS.

Madero Sends New Relay of Troops to Control Baja California.

(Associated Press, Night Report.)

TUCSON (Ariz.) June 7.—Advice received here tonight state that 1000 Mexican soldiers are en route here from Hermosillo aboard special trains, bound for Lower California to attack the Magonistas. The Hermosillo soldiers, it is stated, have been substituted by Madero for Gen. Lague's force, because of alleged plots and suspicions of the loyalty of the Federals stationed in Chihuahua.

MADERO ADDRESSES THROUGH.
(Continued from First Page.)

Both men, short of stature, were overshadowed by the guardsmen of the Madero staff, as well as by those of the Chief Executive. The two men chatted for a few minutes.

"A great deal has been done," President De la Barra said, "but there is much ahead of us. From the day in which you have been received in the capital, I am confident all will be accomplished that should be, and with the support of the popular element."

CONFIDENCE IN DE LA BARRA.
Senor Madero, in reply, expressed his confidence in President De la Barra, asserting he was glad Mexico had at the head of its government, so eminent and so honorable a man.

The members of Madero's staff, Gen. Garibaldi, Lieut.-Col. Raul Madero and Lieut.-Col. Eduardo May, were introduced to the President, as were then other members of his retinue.

The parting of the two men was cordial. They embraced in characteristic Mexican fashion and retired down the long corridor in opposite directions.

Escorted to the gateway by Federal guards, Senor Madero again encountered the cheering jam of enthusiastic crowds, and continued his procession through the streets.

Tonight, noisy celebrants filled the streets and plazas.

Madero was closely guarded throughout the day. At the station one of Madero's guards observed a man with a pistol drawn and, not hesitating to determine whether it was for salute or malevolence, he wrested the weapon from the man's hand and forced him back into the crowd. Several persons were injured in the press of the crowds, but there were no fatalities.

Following Madero in carriages were members of his family and chiefs from surrounding States. Among them was a company from Oaxaca which was commanded by a 15-year-old girl, Esperanza Chavari.

REVIEW THE ARMY.
Senor Madero on Friday, will review the army of the South under Amador Figueroa at Cuernavaca, and shortly after his return will go to Tehuacan for a two months' rest.

"My stay in the City of Mexico," he said, "will depend upon the time it takes the President and myself to arrange details of the reorganization of the government. I shall call only in an advisory capacity."

If there was doubt in the minds of any on-lookers as to the sentiment of the people in the capital toward Madero, it must have been dispelled by the cheering and the applause in the entrance to the station.

Thousands packed the enclosure in front of the building, lined the fences and the roof of houses and filled windows and balconies. These took up the shout and it was in turn repeated by the cheering and the applause in the entrance to the station.

The coach to which Mr. and Mrs. Madero were escorted was drawn by four horses, which were managed by postilons in green jackets, while trappers, colonial style and green caps. With the rodeo Alfreo Robles Dominguez, chief of this military zone.

LINE OF HORSEMEN.
Khaki-clad horsemen made a line, albeit a somewhat dangerous one, with the rearing and plunging of the animals through which the members of the party walked. Bouquets and flowers and wreaths were tossed in their path, and into the carriages as they drove down the boulevard.

Dozens of banners identified different contingents of the crowd backed around the Madero carriage, and the students of the school of Agriculture, of the National Dental School and of the School of Medicine, members of the Anti-revolutionary Club, and representatives of the political clubs bearing banners and flags. With great difficulty, the mounted escort made way for the carriage through the gates and into the picturesquely paved, where the triumphant ride to the national palace began. Several hundred horsemen in broad-brimmed hats and canopies, each with one, two or three belts of Mauser cartridges strapped upon him, followed.

People on foot, with their hands waving and their faces beaming, were in the best of humor. The progress was slow and the picturesquely paved, where the triumphant ride to the national palace began. Several hundred horsemen in broad-brimmed hats and canopies, each with one, two or three belts of Mauser cartridges strapped upon him, followed.

BOVINE TUBERCULOSIS.
State Veterinarian Starts Crusade Against It in Tulare, That Will Extend to Other Counties.
[ASSOCIATED PRESS NIGHT REPORT.]
VISALIA, (Cal.) June 7.—The State Veterinarian of Tulare county today agreed to appropriate \$10,000 to eradicate and prevent tuberculosis of cattle. A meeting will be held June 19 for the adoption of an ordinance requiring the testing of all milk by a county inspector before it may be sold.
State Veterinarian Keane was present at the meeting.
It is estimated there are 50,000 cattle in the county and every one will be examined, and the affected ones killed or isolated.
Fifty per cent. of the beef may be used, where the disease is in the initial stage, according to county inspectors here. Dr. Keane said today he would make the campaign in Tulare county a test in beginning the wider State fight.

MANICURE GIRLS ALARMED.
Los Angeles Madsen Want to Know If They're in Scope of Eight-hour Law.
[BY DIRECT WIRE TO THE TIMES.]
SACRAMENTO, June 7.—[Exclusive Dispatch.] Manicure girls of Los Angeles have written a letter to Secretary of State asking whether or not they are within the provisions of the new eight-hour law for women.
The girls explain that most of them are employed in barber shops, and that they work independently, paying the owner of the shop a percentage of the profits. On this account they believe they should be excluded from the provisions of the law. If they are not, they complain that they will have to forego work Saturday nights from 8 o'clock until 12, the time which, in the past, has been worth more to them in the way of profits than the rest of the week.
Jordan has made no decision, but will refer the letter to the Attorney-General for an opinion.

WOMAN ATTACKS POLICEMAN.
Seattle Wife Fells Officer With the Handcuffs He Was Trying to Place on Her Husband.
[BY DIRECT WIRE TO THE TIMES.]
PORTLAND, (Or.) June 7.—[Exclusive Dispatch.] Patrolman Sid Myers was dangerously wounded by a woman this morning in front of a saloon on Crosby street while attempting to place the woman's husband, Fritz Boyesen, proprietor of the resort, under arrest.
As Myers attempted to snap handcuffs on Boyesen, prostrate on the sidewalk, a fight with Myers, Mrs. Boyesen wrenched the cuffs from Myers and struck the officer over the head with them, splitting his scalp in several places and felling him.
Passersby subdued Boyesen and his wife and both were brought to police headquarters.

WHITNEY MISSING.
HIS CLOTHES ON RIVER BANK.
[ASSOCIATED PRESS NIGHT REPORT.]
FRESNO, June 7.—Searchers are today seeking the body of a man whose disappearance was reported yesterday. Whitney, who is believed to have committed suicide by jumping into the San Joaquin River at Herndon. Yesterday Whitney paid an expressman to take him to the river, stating that he wanted to go camping. Immediately on their arrival Whitney jumped into the stream with suicidal intent and was rescued by John Hart, the expressman. Hart returned to town alone, as Whitney refused to return. Today Whitney's clothes were found on the bank of the river and he is missing.

[BY DIRECT WIRE TO THE TIMES.]
LAKEVIEW, (Or.) June 7.—[Exclusive Dispatch.] Left alone on a mountain in the Coast Range, a shepherdess dog cared for her puppies and sheep for two weeks until her master, John Saunders, was found dead. The dog, named "Maggie," was found by a party of hunters. How the remarkable animal contrived to care for the band in the wild and rugged country, which is among the roughest in Lake county, to protect the sheep from the wolfish throaters, keep them from scattering and provide food for them, is a mystery. Mr. Saunders said he would not believe it possible had not the hunters and investigators disclosed the facts.

COLTON RUMAWAY FATAL.
Efforts to Stop Rushing Horse Result in Man Being Thrown So His Head Hits the Ground.
[BY DIRECT WIRE TO THE TIMES.]
COLTON, June 7.—[Exclusive Dispatch.] W. R. Wampler was thrown from his carriage this afternoon and instantly killed.
Mr. Wampler was trying to gain control of a horse which was running away when he was hurled to the ground and struck on his head. The accident occurred directly in front of the George Gunn residence on Seventh street. An only son, LeRoy Wampler, was accidentally shot and killed last February.

RIVER CELEBRATION.
FRESNO LAYS PLANS.
[ASSOCIATED PRESS NIGHT REPORT.]
FRESNO, June 7.—The Chamber of Commerce this afternoon discussed plans for a big celebration at Skaggs bridge on the San Joaquin River to welcome the river steamer that starts on its trip from the bay June 9. It is planned to secure a brass band and citizens will probably flock to the scene in automobiles. The steamer will take five days to make the voyage as many stops will be made to deliver freight. The necessary 200 tons of freight have been secured for the return trip.

SLOPE BRIEFS.
Measured Space to His Death.
CORDELLA, (Cal.) June 7.—[Exclusive Dispatch.] Michael Blasen, a Southern Pacific section gang, was accidentally electrocuted today near here while trying to measure the height of a power line from the ground. He tied a railroad spike to a line wire and threw it over the highly charged power wire.
Wappenstein on Stand.
SEATTLE, (Wash.) June 7.—[Exclusive Dispatch.] Police Charles Wappenstein, on trial on charges of accepting a bribe for permitting house in the old vice district to operate, went on the witness stand today. His examination and cross-examination probably will consume all of today and tomorrow.

Seymour Trial Halts.
SAN FRANCISCO, June 7.—A writ of prohibition, enjoining the Police Commission from proceeding with the trial of Chief of Police Seymour on charges preferred by Captain of Police O'Day, was issued today by Superior Judge Sewell. The trial before the commission was scheduled for this afternoon.

Bell Dies of His Injuries.
FRESNO, June 7.—John R. Bell, superintendent of the San Joaquin Light and Power Company, injured in an automobile accident near Shaver Sunday, died today. He was pinned under the machine after it had fallen forty feet over a mountain grade.

Leaves a Third to Church.
SAN JOSE, June 7.—By the will of David Kirkpatrick, a Milpitas farmer who died a few days ago, one-third of his estate, valued at \$11,000, is bequeathed to the First Presbyterian Church of this city.

FIND PEPPER IS INSANE.
Missouri Supreme Court Upholds Verdict in Case of Multi-Millionaire Tobacco Man's Son.
[BY DIRECT WIRE TO THE TIMES.]
ST. LOUIS, (Mo.) June 7.—[Exclusive Dispatch.] Missouri's Supreme Court today upheld the St. Louis Probate Court jury's verdict that Adolphus Pepper, son of the late Christian Pepper, multi-millionaire tobacco manufacturer, is insane.
Pepper applied for a writ of certiorari against the jury's verdict on the ground that it was by a vote of 9 to 12. The Supreme Court holds insanity proceedings are civil actions. Adolphus Pepper, who dressed like a workman and owned an unusual number of automobiles which he kept at his modest home, was recently arrested for running one of them without a license and several months ago he was arrested charged with stealing a tire from a wealthy woman's automobile standing in front of a theater.
Pepper's wife was a Covington, Ky. woman.

COOLER IN MISSOURI.
Kansas and Oklahoma are Still Suffering from Heat—Highest Temperature Hundred Over One Hundred.
[ASSOCIATED PRESS NIGHT REPORT.]
KANSAS CITY, June 7.—Though showers cooled a large part of Western and Southwestern Missouri today, Kansas and Oklahoma still suffered from the heat.
In Oklahoma the temperature reached 101 degrees at Oklahoma City.

UNION SLUGGER IS REARRESTED.
New Witnesses Found to Identify Enright.
Say They Saw Him Fire the Fatal Shots.

Chicago Police Watching the Trial of Others.
[BY DIRECT WIRE TO THE TIMES.]
CHICAGO, June 7.—[Exclusive Dispatch.] Maurice "Boss" Enright, charged with the murders of Vincent Altman and William "Dutchy" Gentleman, who was out on bonds of \$20,000, was taken into custody today on a warrant charging him with conspiracy to do an illegal act. The new move on the part of the police was said to have been made in order that the bonds might be set aside and Enright held without bail. Enright spent tonight in a cell.
Inspector Hunt testified that he had three witnesses who could identify Enright as the slayer of Altman. He says he has a man who witnessed the shooting and who is ready to testify that the slain man had no chance to defend himself, but that he was riddled with bullets as soon as he stepped to the end of the bar where the union sluggers were waiting for him.
Walter Stevens, "Red" Conners, Joseph Kane and John McCabe were arraigned before Municipal Judge Maxwell and demanded immediate trials. The court continued the cases until June 16 on the request of Assistant State Attorney General, who refused to reduce the amount of the bonds, which aggregates \$42,000.
Harry Higgins and Peter Gentile were placed on trial before Judge Honore on a charge of attempted burglary. As both are members of the union slugging crew, the police are interested in the outcome of the trial. It is said the alleged burglars have been deserted by the union labor officials and if they are convicted on the present charges, they are likely to be sent to State Prison, where they know about union slugging.
P. J. Snyder, slugging for the Chauffeurs' Union, was found guilty by a jury in Municipal Judge Blake's court today of assault with a deadly weapon with intent to kill.

LOCAL TRAVELERS.
Los Angeles and Southern California People Who Are Registered at Hotels in Other Cities.

Allen, Thomas Keltner, Joseph B. Barnes, Mrs. Pope, Jr.

CONVENTION RATES.
UNDER DISCUSSION TODAY.
[BY DIRECT WIRE TO THE TIMES.]
CHICAGO, June 7.—[Exclusive Dispatch.] The Executive Committee of the Western Passenger Association will hold its regular meeting tomorrow to consider a number of questions affecting the passenger traffic of the roads operating west from Chicago. Among them will be the subject of special fares of various months, including the convention rates of the American Osteopathic Association, the Chicago National Dental Association in Cleveland, and the National Convention of the Knights of Columbus in Detroit. Other subjects to be taken up are the issuance of annual passes complimentary to passenger officials below the rank of assistant general passenger agent, reduced fares for clergymen, and reduced rates to State fairs to be held in Western Passenger Association territory during the year.

"ARSON TRUST" IN CHICAGO.
CHICAGO, June 7.—The first arrest of alleged members of the "arson trust" was made today. The "arson trust" came to light yesterday when a merchant confessed to hiring men to burn his establishment. This merchant, Leopold Dreyfus, committed suicide. Jacob Wronoski was taken today charged with being one of the band of alleged fire bugs. He is said to have been mentioned in the confession of Dreyfus.

Waists---My Sensation

50c 75c \$1

See the big aeroplane window loaded down with them, then come and participate in waist values, the like of which is sure to startle the city—waists that are the wonder of all who see them, waists that give new meanings to the word values. Great, snowy driffts of them—yes, about 5000 of them, all told. Clean, crisp, new, dainty summer styles. One of the big shirtwaist manufacturers of the country passed these along to me that I might create a sensation and win the first prize. His surplus line of an over stock after a big season's selling. Three great lots. You must see them to appreciate their value. **H. N. MIDDLETON,**

Waists at 50c
Not the sort of waists you'd expect to find at the price. No, indeed. These are rich in values from the neat tailored styles to the pretty waists with embroidery trimming. Wonderful is the word that describes them best.

Waists at 75c
Including the very newest models; many with Dutch necks; many with colored embroideries and tailored styles, too; handsomely trimmed with lace and embroidery.

Waists at \$1.00
So rich in value are these waists that description is out of the question. Dutch neck, kimono sleeve or high neck models and tailored styles. Who would be without a half a dozen new waists when you can find so much character at such a little price? Compare them with the usual \$1.50 lines or higher.

MISSES' DRESSES FOR GRADUATION TIME.....\$2.95
Bought specially in anticipation of coming graduation, and marked specially as a feature of this Department Managers' Sale. Figure the cost of the material and the making, to say nothing of the style and originality, and you'll pronounce these dresses wonderful—at \$2.95.

Stamped Wash Belts 5c Each
These are the washable belts, stamped in designs for braiding, French knots, eyelet work, made on extra strong quality white repp. I've never sold such quality in regular stock under 10c. My contribution to Thursday bargains, 5c each. **J. S. SCHMIDT.**

fashioned. 25c and 50c Sox for infants or
children, today and Friday at 15c pair.

COULD YOU DO IT?

Attorney Thompson's Attorneys
Argue That Familiarity With a Sig-
nature Implies Ability to Reproduce.
Whether the credibility of a wit-
ness as to a signature can be deter-
mined by his ability to reproduce that
signature was the question featured in
the Thompson trial in Judge Well-
born's court yesterday.
The question arose during the ex-
amination of Albert C. Robbins, the
auto dealer, as to the signature of Fred
H. Thompson to a receipt. Thompson's
attorneys at once asked that pen
and ink be furnished the witness to see
if he could reproduce the writing, it
being argued that, unless he could do
so, his testimony would be valueless
as to his familiarity with it.
The government objected to any
such test, and Judge Wellborn said
he had never heard of such a thing be-
fore. Counsel for the defense agreed
to furnish authorities favoring their
contention.
O. C. Angeline, cashier of the St.
Francis Hotel, San Francisco, testified
that Thompson and his wife stopped
at that house in October, 1909, and
that Thompson was given a draft on
the Wells Fargo Nevada National
Bank for \$100, in return for that
amount of currency.
On account of the previous engage-
ment of juror G. C. Pierce, which he
could not cancel, the court took a re-
cess over yesterday afternoon.

HIS BIKE AND HE DO TRAVEL

SEVENTEENARIAN CHAMPION IS
NOW AMONG US
With Four Thousand Miles on Two
Wheels to His Credit, the Veteran
Editor of Los Angeles' First News-
paper Pedals in, Hale and Hearty
as Ever.

The greatest bicycle enthusiast for
his age in the world arrived in Los
Angeles yesterday. Notwithstanding
the fact that he is 70 years old and
that he was a soldier in the Civil
War, Maj. Edward A. Weed has cov-
ered more than 400,000 miles on his
wheel in North America during the
last seventeen years. He believes
that any man may have perfect health,
unless he deliberately chooses an un-
natural life.

Maj. Weed was the editor of the
first morning paper ever published in
Los Angeles, the "Recreation and
Morning News," printed
nearly thirty years ago. He is an
old newspaper man, having edited a
number of papers in California,
Oregon and Illinois. Although at present
he is not affiliated with any daily pub-
lication, he is a well-known contributor
to many weekly and monthly maga-
zines. He is also a lecturer of con-
siderable repute.
"I don't think Dr. Osler was right
when he said men have reached the
limit of their usefulness at 60," he said
yesterday. "I may not be of much
worth to the world but I don't look
back on my life with regret. As far as
I am concerned, I take a cold bath every
morning and I don't drink, smoke,
gamble, swear or play billiards or ten-
nis. I am also a pretty fair taylor,
and I have made a beautiful suit out
of pieces of embroidery, showing in

WIVES TRAP RECREANT SPOUSE

much Married Colored Man Goes to
Jail to Face Charge of Being Too
Much Married.
Edward C. Logan, colored, of No.
1042 East Ninth street, is so much
married that he was sent to the County
Jail after an arraignment yester-
day before Justice Summerfield on a
charge of bigamy. More interesting
facts about his three wives are ex-
pected to be divulged today at his
examination. He was sent to jail in
default of \$5000 bond.

DOCTOR'S TESTIMONY AFFECTS
HERMOSA SUICIDE.
Woman's Statement in Note
Found on Her Breast Is Un-
supported by Statement of Physician
Regarding Her Condition as Shown
by a Post-Mortem Examination.

RECONDON BEACH, June 7.—The
Coroner's jury which today investi-
gated the death of Miss Christine Eker
whose body was washed ashore at
Hermosa, returned a verdict of
"drowning suicidal."

WANT REST AFTER WORK

Preparations for Commencement
Prove Strenuous and Social Center
Association Postpone Meeting.
prizes Are Promised.

On account of the strenuous work
connected with commencement exer-
cises, the Executive Board of the
Polytechnic High School Social Cen-
ter Association yesterday morning de-
cided to postpone the next meeting,
which should have been held the second
Saturday in June, until Septem-
ber 22.

On the night of the next meeting,
which will be held in the school's new
lunch room, an elaborate supper will
be served. John A. Eby, president of
the organization, has promised the
members pleasant surprises in toasts
and speeches.

Mrs. Frank Blair, secretary of the
club, states that the association prob-
ably will join the Los Angeles Feder-
ation of Parent-Teachers' Associations
next year. She says that an outline
of the coming year's work will be
planned at the next meeting. The
Polytechnic Social Center Association
now numbers more than 100 members,
and has been growing in membership
and enthusiasm since its organization
in May.

AUCTION SALE FOR CHARITY.
Diagram of Seats to Be Shown on
Drop Curtains at Orpheum in Novel
Philanthropic Scheme.
The Associated Charities' announce-
ment of an auction of all box, loge
and lower floor seats for the opening
of the new Orpheum is meeting with
popular favor. This unique auction
sale through which charity expects to
reap a large amount in premiums over
and above the prices charged by the
Orpheum management for the seats,
to take place next Wednesday morn-
ing at 10 o'clock at the old Orpheum
on Spring street.

President Frank has not yet an-
nounced the name of his auctioneer
—but his plan for the sale has been
made public. A large diagram show-
ing the exact location and position
of each seat will be shown on a drop
curtain. True seats will be auctioned
and the purchaser will visit the im-
proved box-office arranged for the
sale in the orchestra pit, turning over
the amount of his bid either in cash
or by check to Cashier Mort Lazard
of the Associated Charities.

The actual seat price will be turned
over to Treasurer Arthur Dentler of
the Orpheum, who will issue the seats
themselves. No individual purchaser
will be allowed to buy more than six
tickets, save in the case of purchasers
of a box, each of which contains
eight seats.

In order that those in attendance
may know exactly what there is left
to bid on, each seat will be marked
off on the diagram as it is sold. Ar-
rangements have been made for mail-
ing 1000 post card invitations to at-
tend the sale, on Saturday.

CURED IN FIVE DAYS

Hernia, Piles, Fistula and Varicose Veins

Many Cases Cured Permanently in
FIVE DAYS. Most Time-Saving,
Most Natural, Most Safe. No Dis-
turbance from Occupation, Family or
Home. A Radical and Permanent Cure.
I Will Give \$500 to Any Charity as a
Guarantee That Every Statement in
This Announcement is True.

I cure promptly, painlessly and at small
expense. Cured patients are my testi-
monies, how I do it I will not make public
names and addresses by publishing them.
I will give conclusive evidence of my
merit which is obtained and maintained
by ability. I invite you to come to my
office. I will explain my treatment, show
Hernia, Piles, Fistula, Varicose Veins,
Pelvic, Nervous, Blood, Kidney, Bladder
and Rectal Diseases. I will give you first
a physical examination, then I will make
a microscopic and chemical analysis of
specimens to determine existing patho-
logical and bacteriological conditions.
Every person should take advantage of
this opportunity to learn their true con-
dition. Certainty of cure is what you want.

VARICOSE VEINS.
In the case of Varicose Veins, Rupture
and Associated Diseases of the Pelvic Re-
gion, I am successful in bringing to bear
the curative power of Nature's forces in
such a manner as to supplant the old-
fashioned, wide-open surgical operations. On-
ly it required several weeks to cure these
conditions and the method which some
will use is such as to endanger the life
of the patient and require a long period
of convalescence. Now an absolute cure
can be accomplished in a few days with
the most perfect safety.

TRUSSES SELDOM CURE RUPTURE.
Disregard for existing Hernia has cost
many lives. I do not just make patients
names and addresses by publishing them.
I will give conclusive evidence of my
merit which is obtained and maintained
by ability. I invite you to come to my
office. I will explain my treatment, show
Hernia, Piles, Fistula, Varicose Veins,
Pelvic, Nervous, Blood, Kidney, Bladder
and Rectal Diseases. I will give you first
a physical examination, then I will make
a microscopic and chemical analysis of
specimens to determine existing patho-
logical and bacteriological conditions.
Every person should take advantage of
this opportunity to learn their true con-
dition. Certainty of cure is what you want.

PILES, FISTULA, RECTAL DISEASES.
These diseases are very common; most
frequently found in persons of middle
advanced age; are exceedingly annoying,
often very painful, and sometimes very
dangerous, and frequently undo one's
pleasure or occupation. My treatment and
successes are the result of years of ex-
perience; my treatment is kindly applied,
I cure Piles without cutting. Some cases
are cured by one or more treatments. I
cure your Piles, Fistula, Hemorrhoids or
Rectal Diseases, my treatment does
not cost you anything. Gentleness in
my services as treatment comes from treating mild
cases, so I guarantee a cure of Piles, Fis-
tula, Hemorrhoids and all curable
Rectal Diseases. I pay for my
services.

KIDNEY AND BLADDER DISEASES.
With these diseases you may have many
complications than are presented by any
other disease; ergo, by my search-
ing examination of the bladder I determine
accurately the diseases and by my micro-
scopic examination and analysis, I
make sure of the condition of the vis-
cera, thus laying foundations for sci-
entific treatment.

WRITTEN GUARANTEE.
Dr. Tillotson's written guarantee means
a cure or no pay. I guarantee to
cure certain diseases or refund every
cent. I have paid out for my services
My services cost you nothing unless I cure
your Varicose Veins, Hernia, Piles, Hemor-
rhoids, or any disease. I guarantee to
cure. My terms are reasonable and no more
than you are willing and able to pay.

READ MY BOOK.—It contains information every young man, husband and father
should have regarding himself. Book sent free to those who, in my opinion, will
be benefited by it. Call or write before treating for disease or disorder.
Office Hours—9 a.m. to 12 m., 1 to 3 and 5 to 8 p.m. Sundays 9 a.m. to 1 p.m.
I OFFER A FREE CONSULTATION AND EXAMINATION.
ENGLISH, GERMAN, SWEDISH, NORWEGIAN, DANISH, SPANISH SPOKEN.

Summer Clothes

For Men Who Would Dress
Comfortably and Smartly

Long months of it ahead. Gentlemen—months of summer weather with its long, warm days—with its trips to the beaches—with its pleasant porch calls in the evenings.

Better get that light, thin, comfortable Suit, and begin to enjoy it right away.

You'll find so many pleasing effects here that you'll be apt to buy two suits instead of one. For we have the most tasteful collection of "Summery" Clothes that you ever picked from.

New rough Blues—new shades of Tan and Brown—cool Blue Grays—and many other new ideas that make up very handsomely.

They come from the best Clothes Makers in America—and, positively, they leave nothing to be desired in the way of style, fabric and fit.

Special sizes for you, if you're a bit stout or taller than the average—perfect fittings for every build of man.

Suits at \$15, \$18, \$20, \$25, \$35 and to \$45—big assortments at every price mentioned.

Cool Summer Wearables

Summer Shirts—of every descrip-
tion, including the famous
"Manhattans." Thousands to
select from.
New Panama Hats—they're genu-
ine. All the correct shapes.
Priced at \$6, \$7.50 and \$10.
Bathing Suits—in plain colors, as-
sorted colors, and "beach
mixtures." Prices \$2.50 to \$4.
Onyx Brand Silk Hosiery—all colors
—the kind you ordinarily pay
75c for—at 50c.

Straw Hats—in all styles; thou-
sands to select from, at \$2.00
and up.
Pajamas and Night Shirts—in soft,
cool materials for summer wear.
Pajamas, \$1.50 to \$15. Night
Shirts, 50c to \$3.50.
Extra Trousers—White Ducks,
Khakis, Corduroys, Flannels—in
all wanted materials.
Men's Underwear—all the adver-
tised brands—in "briefs" and
full length garments. Prices
50c per garment up.
Soft Felt Hats—French, English
and Italian makes, at \$3 to \$6.
Stetsons, \$4 to \$12.
Caps of Every Description.
Suit Cases, Traveling Bags, etc.

June Sale of Undermuslins

The great success of our June Sale of Undermus-
lins is due to the character of the merchandise we
are offering at sale prices. Discriminating buyers
of lingerie quickly realize the difference between
our superior values and the ordinary kinds usually
offered during special sales.

Our garments are not samples—but new and dainty
undermuslins advantageously bought in large assort-
ments for this sale. A special feature of our lingerie
is the careful finishing of each garment. The large quantity
of our garments already sold is an excellent proof of the
meritorious character of our undermuslins.

WE NOTE THE FOLLOWING STRONG
VALUES TODAY.

Night Gowns, \$1.25
Values, Sale Price, Each 95c

Made of soft nainsook, correctly cut in various styles,
and effectively trimmed with lace or embroidery. Don't

signed for complete freedom and comfort. Price 50c.

The VITAL POINT

**Pioneer
ROOFING**
THE VITAL POINT of any building is the roof. As a chain
is no stronger than its weakest link—so a building is no
better than the roof that protects it. A roof should be sun-
proof and rain-proof. Pioneer Roofing is both—and besides, it
needs no paint or repairs. There is one Pioneer Roofing for the
residence; another for barns, outhouses, poultry sheds, etc.; and
still another for business blocks.

State your roofing requirements, and we will gladly send you
samples of Pioneer Roofing best adapted for the kind of build-
ing you wish to cover. The Pioneer Roofing Booklet contains
much information of value to property owners and prospective
builders. Your copy is waiting for you—and it's free.

THE CANTINE QUESTION.
The presence of the army in Texas during the recent troubles in Mexico supplied a tremendous argument in favor of the restoration of the army canteen. In the vicinity of the troops along the border many badly-regulated and generally inferior grog shops have been established; and these have taken the place of the orderly canteen in the days and evenings of the soldiers who believe in having something to drink.

DEAD ONES.
It is suggested that Cipriano Castro, who is sojourning at Lisbon, turn out and lead the procession when Diaz reaches Spain, for it is but a short distance from the Portuguese capital. It might serve as a reunion for the distinguished has-beens, Castro, Manuel, Menchik, not to speak of a few dead ones who get their mail in this country—we are mentioning no names.

QUITE A CONTRACT.
Hon. Oscar Underwood of Alabama, chairman of the House Committee on Ways and Means, proposes to eliminate Col. Bryan from the Democratic party. Mr. Underwood represents the great protectionist city of Birmingham, Ala., that increased its population more than 200 per cent. (as per the census figures) by means of its manufacturing interests fostered and protected by the policies of the Republican party. But what an excitement there will be when young Mr. Underwood proceeds to knock Mr. Bryan over the ropes.

HAD FORGOTTEN HIM.
The fact that ex-President Diaz had to fairly fight his way out of the republic that he raised from barbarous beggary to affluent civilization shows how soon a country is likely to forget its savior. History relates that it has been the way of the world for unnumbered years to prove the ingratitude of republics. If Mexico rises in the future to still greater heights of power and pride it will be largely due to the firm foundation laid by this man of brain and iron, who had to fight his way out of a nation he had exalted to power and crowned with prosperity. Poor Mexico, poor Diaz!

INCOME TAX MUST WAIT.
The proposed income tax amendment to the Constitution cannot be adopted before 1912. Thirty States, through their Legislatures, have ratified the amendment, but five more will be needed to give it the required three-fourths vote. If New Mexico and Arizona are admitted before the Presidential election six more States will be required. But the adoption of the amendment will not enact an income tax. That power rests in Congress. With free trade and a big deficit in the national revenues, the tax might be invoked by Congress to make up the amount of money required to conduct the affairs of the government.

GROWING LOS ANGELES.
The request of Postmaster Harrison for a special meeting of the Civil Service Board for the examination of persons desiring to become extra clerks and carriers in the local postoffice indicates the wonderful growth of the postal business in this city. Additions were made to the force but recently and it is now necessary to appoint more clerks and carriers from the number of eligibles certified by the board. The postal traffic in this city is jumping by leaps and bounds. And there is no better sign of the growing commercial importance of the city.

STEEL TRUST REVELATIONS.
The revelations of the inside workings of the steel trust, which are now coming to light, emphasize the general belief that this huge combination is a great money maker notwithstanding its enormous bonded obligations.

But the charming thing about it all is the canny way in which the Laird of Skibo looked after his glided future when he sold out to the trust. The whole outfit is really working for Andrew Carnegie, when all is said and done.

Perhaps no one has a right to complain. Mr. Carnegie is not doing badly with his money. He has scattered library buildings all over the country. Better than that, he has put up millions for the cause of universal peace and has pensioned the heroes of peace. He has given and still gives other millions to science for the purpose of healing the awful diseases that afflict the human race. He is far from what you would call a bad man.

FIENDISHNESS.
For unique devilishness in crime New York City maintains a leading position. At 9 o'clock in the morning three men were seen wrestling with and striking each other on the roof of a building at 165 East Ninety-ninth street. Dozens of people living on the top floors of the adjacent buildings were attracted to the windows by the cries of the combatants.

Two of the men overcame the third and, while one of them held him, the other rified his pockets. The victim finally broke loose and started to run across the roof. He was weak from his injuries and staggered after going a few feet. The two men overtook him, seized him and, despite his appeals for mercy and cries for help, threw him over the edge of the building down an air shaft. The fall was five stories, and death was instantaneous. The murderers quietly descended the stairs and escaped. Several men were arrested by the police on suspicion, but thus far there has been no identification of them or of the murdered man.

EIGHT-HOUR LAWS.
The Legislature of Nebraska enacted a law providing that for all classes of mechanics, servants and laborers, excepting those engaged in farm or domestic labor, a day's work should not exceed eight hours, etc., etc. The Supreme Court of Nebraska, in *Low vs. Printing Co.*, 41 Neb. 127, held: "These provisions are unconstitutional (1) because the discrimination against farm and domestic laborers is special legislation; (2) because, by the act in question, the constitutional right of parties to contract, etc., is denied." In *Ritchie vs. People*, 155 Illinois 98, a statute prohibiting the employment of females in any factory or workshop for more than eight hours a day was held unconstitutional— "as being partial and discriminating in its character, whether applying only to manufacturers of wearing apparel or to manufacturers generally, and it was not within the police power of the Legislature."

The Ohio Legislature enacted a law that ten hours shall constitute a day's work, and that the employees therein named shall be paid for every hour in excess of ten which they shall be required or permitted to work, in addition to their per diem. "This law," said the Supreme Court of Ohio in *Wheeling Bridge, etc., R. Co. vs. Gilmore*, 4 Ohio Decisions 368, "is in conflict with sections 1 and 19 of Article I of the Constitution of Ohio, in that it fails to allow persons to contract for a longer day's work if they wish to do so."

In re Eight-Hour Bill, 21 Colorado 29, the Legislature of Colorado asked the opinion of the Supreme Court whether a law providing that eight hours should constitute a day's labor in a mine, smelter or factory would be constitutional and legal. In reply the court said: "It is not competent for the Legislature to single out the mining, manufacturing and smelting industries of the State and impose upon them restrictions with reference to the hours of their employees from which other employees of labor are exempt. An act such as proposed would be manifestly in violation of the constitutional prohibition against class legislation. The bill submitted also violates the right of parties to make their own contracts—a right guaranteed by our Bill of Rights and protected by the Fourteenth Amendment to the Constitution of the United States."

But in Utah (*State vs. Holden*, 14 Utah 96), in Washington (*Matter of Board*, 36 Wash. 449), in Massachusetts (*Com. vs. Hamilton Mfg. Co.*, 120 Mass. 383), in New York (*People vs. Warren*, 77 Hun. 120), and in Nevada (*Ex parte Boyce*, 27 Nev. 299), the decisions were that an eight-hour law is not unconstitutional.

In California the Supreme Court held (*Ex parte Kuback*, 85 Cal. 274) that a municipal ordinance making it a misdemeanor for any person "when having labor performed under any contract with the city, to demand, receive or contract for more than eight hours' labor in one day from any person in his employ or under his control" was void; that the right of every person to pursue any lawful calling, without let or hindrance, cannot be secured without permitting every person who wishes employment to seek it, and to leave all persons free to accept the services of others on such terms as may be agreed upon by them; and that "we cannot conceive of any theory upon which a city could be justified in making it a misdemeanor for one of its citizens to contract with another for services to be rendered because the contract is that he shall work more than a limited number of hours per day."

EFFECT OF RECIPROCITY.
It may be conceded that the proposed reciprocity treaty was the offspring of an honest desire on the part of President Taft to reduce the cost of living to the American people, by lessening the cost of food, through the process of admitting the raw material of food duty free from Canada. The object is worthy, but the process is unjust, in that it would make the farmer bear the entire burden of the reduction, if reduction should result, which is by no means certain.

Only a small portion of the food raised by the farmer is eaten in the shape in which it is produced on the farm. "The farmer raises corn and wheat, but he buys meal and flour. He raises cattle and hogs, but he buys beef and bacon. He buys rice and sugar, soap and starch, mustard and vinegar, pepper and salt, and raisins and olive oil. If the object of reciprocity is to reduce the cost of food, why not place manufactured food as well as raw food on the free list? The flour trust, the beef and pork trusts, and other trusts engaged in manufacturing food are more likely to benefit by reciprocity with Canada than the American consumer, and, if reciprocity be ratified, the anomaly will be presented of the farmer himself receiving a lower price for his grain and his hogs and paying the same price for the flour and the pork made from them.

Under reciprocity the tariff duty of 25 cents per bushel is removed from wheat, while the duty of 50 cents per barrel on flour is retained. The tariff duty of 10 cents per bushel is removed from oats, while the duty of 50 cents a hundred pounds on oatmeal and rolled oats has been retained. The duty on live stock is removed, but the duty of 14 cents per pound on meat is retained. The beef trust, the packing concerns, the millers, the bakers, the brewers and the canneries are all protected in the prices they receive for their goods and will be enabled by reciprocity to buy at reduced prices the material from which those goods are made. The farmer is the sufferer, the manufacturer is the gainer, and the public pay the same prices as before for food.

The United States has twelve times the population of Canada. Under reciprocity the people of the United States gain one more customer for their products, and the people of Canada gain twelve more customers for their products. Reciprocity with Canada is, to the extent of its limitations, free trade with Canada. It does not stop with "tariff for revenue only." It proposes an utter abandonment by the Republican party of protection and an adoption of the dogmas of the Cobden Club. It is to be hoped that the Republicans in the Senate will put reciprocity to sleep in the waste baskets before the extra session shall adjourn.

There is said to be an investigation of the shoe industry on foot in Washington.

IMPARTIAL JUSTICE.

One of the most important criminal trials of the century will be conducted in the city of Los Angeles. Wherever the responsibility rests for the attempted reign of dynamite and terror, there let the axe fall; the innocent are safe under the law. It is the duty of all good men and true to say nothing that tends to obscure the issue, to refrain by word or deed from casting any obstacle in the way of a full and perfect investigation, to refrain from placing any hindrance in the path of free and fearless justice.

No man worth his salt will wish to be identified with the hideous series of crimes which have blackened the records of the past twelve months or will ostentatiously ally himself with the forces of hellish destruction and cold-blooded murder. No man jealous of his reputation will wish to see any accused man adjudged guilty, except on such damning evidence as even the ingenuit of Satan himself would be unable to disprove. All men whose motives are lofty and whose hearts are in the right place will ask for a clean and unbiased trial of the labor-union leaders accused of these monstrous deeds; will demand that, if innocent, they be given every opportunity to vindicate themselves, and will insist that they pay the penalty according to law, if guilty.

WANTED—A JOB AS HIGH ADMIRAL.

Is the new socialist republic in Baja California, or the insurgents who continue to insurrect in the vicinity of Manzanillo, or the cannibals of Tiburon Island, or any nascent republic, kingdom or empire in want of a Lord High Admiral? Capt. Mayer, late of the Hamburg-American line, is looking for a job of that kind. He resigned his employment to accept the position of grand admiral of the navy of Hayti, which consisted—or would have consisted—of the third-class cruiser *Unbrink*. If the Italian government—which sold the ship to the Haytian government—had been a little more confiding in extending credit to President Antoine Simon of Hayti.

But the sordid Italians refused to deliver the navy of Hayti to the republic of Hayti upon any other than a spot-cash basis, and, when Grand Admiral Mayer arrived at Port au Prince to take charge of the Haytian navy, he found no navy awaiting him and he returned to Germany. He cannot regain his position on the Hamburg-American line, for he abjured his allegiance to the Kaiser in order to qualify himself for grand admiral of Hayti. He is still anxious to sail the ocean blue with gold anchors on his shoulders. Anybody in want of a Lord High Admiral will please address Sigismund Wilhelm Snigglefritz Mayer, care of The Times.

TELEPHONE WONDER.

It is announced that telephonic communication has been established between New York and Denver, and the hope is expressed that it will soon cover the long stretch from New York to San Francisco.

It must be most gratifying to Alexander Graham Bell, who is still living, to realize that his great invention, once laughed at as a dream or a toy, has conquered the world; for he has covered every nation under the sun with his network of wires. Before long it will be possible for us to converse with people at any point in the country, perhaps with foreign capitals, or, if wireless can be adapted, with ships at sea. Three hundred years ago this would have been regarded as necromancy.

Speaking of the coming convention of the Turners in this city: "Gut Heil."

MEN AND THINGS ACROSS THE SEA.

The late Sir Richard Holmes was the grandest of more state secrets than any other person in Great Britain. From 1870 to 1907 he was librarian of Windsor Castle in which are preserved most of the private archives of the present and recent reigns, such as, for instance, all the correspondence of King Edward and of Queen Victoria, with foreign sovereigns and royalties, with members of their families at home and abroad, and with their ministers, during the near four score years covered by their respective reigns.

The voluminous character of this correspondence can best be appreciated when it is explained that until George came to the throne, the leaders of the House of Lords and of the House of Commons (each of them Cabinet Ministers) were compelled each and every night, when Parliament was in session, to write in their own hand, a letter to the monarch, giving a brief account and a précis of the business transacted at the sitting with comments thereon. All this correspondence is kept in the library at Windsor Castle and it may be doubted whether there was anyone at the Court of St. James who was entrusted with the guardianship of so many secrets of state, and concerning the English reigning house and foreign royal families, as Sir Richard Holmes, who has just been gathered to his fathers.

The flag of Denmark, a plain red banner bearing on it a white cross, is the oldest flag now in existence. For over 300 years both Norway and Sweden were united with Denmark under this flag. In the year 1219 King Waldemar of Denmark, when leading his troops to battle against the Livonians, saw, or thought he saw, a bright light in the form of a cross in the sky. He held this appearance to be a promise of divine aid, and pressed forward to victory. From this time he had the cross placed on the flag of his country and called it the Dannebrog, that is, the strength of Denmark.

The active part King George is taking in the rehearsals for the coronation service, learning his part so as to avoid every possibility of a mistake, has caused a peculiar question to be suggested as to who is the lawful ruler of England. It will be remembered that on the occasion of the coronation of King Edward, he was just recovering from a severe operation. It was out of the question under the circumstances that he should take part in these very fatiguing rehearsals, and in consequence thereof Maj.-Gen. John Brocklehurst, Esquerry of Queen Alexandra, uncle of Sir Philip Brocklehurst, the young Baronet of South Pole exploration fame, was selected to take the King's part in the rehearsals.

Day after day the general—at that time colonel—sat on the throne of King Edward the Confessor in the old Abbey, was appointed, robed, crowned, invested with scepter and with sword of state, and received the kneeling homage of peers and prelates, giving to the king the "kiss of peace." Inasmuch as all this took place before the actual coronation of Edward VII, it is just a question in the minds of some people as to whether Gen. Brocklehurst is not really the lawful ruler of England, Scotland and Ireland, seeing that he has proved and announced in the records of the Central Society for the Assistance of German Nobles. Here he finds that the descendants of families whose nobility is beyond question are in some instances gaining a livelihood, such as it is, as clerks, shopmen and minor officials. Many have emigrated to America. Among these are the records of the Central Society for the Assistance of German Nobles. Here he finds that the descendants of families whose nobility is beyond question are in some instances gaining a livelihood, such as it is, as clerks, shopmen and minor officials. Many have emigrated to America. Among these are the records of the Central Society for the Assistance of German Nobles.

While Germany enjoyed no business boom in 1910, there was hardly any branch of industry that did not show improvement. In general, however, the profits derived from the year's trade were reported as comparatively small, the cost of production having become much greater in consequence of the high prices of raw materials and the increased rate of wages, while the selling prices were kept at a low level by competition and by the decreased purchasing power of the masses because of the increased cost of living. Among the various raw materials the prices of which were higher in 1910 than during the previous year were cotton, cotton yarn, materials for the manufacture of houses, justly distinguished, especially jute and linen yarn, hemstitch wood, iron, bar and beam iron, tin, zinc, pig, glycerin, fats and fatty oils, etc.

PROGRESS IN CALIFORNIA.

BY WALTER J. BALLARD.
Los Angeles is rapidly nearing the billion-dollar-a-year mark in bank clearings. The total for May was \$78,323,883 (April 29 to May 29). For the nine principal cities of the State the bank clearings from April 29 to May 29 were:

San Francisco	\$197,775,193
Los Angeles	78,323,883
Oakland	14,470,158
San Diego	6,557,554
Sacramento	5,978,452
Pasadena	3,733,716
Stockton	2,875,461
Fresno (to May 21)	2,734,433
San Jose	2,049,879
Total	\$314,559,729

Considerably more than \$1,000,000 a day, Sundays and holidays included.

Building Permits.
Building permits issued in May in some of the cities were, in value:

San Francisco	\$2,159,587
Los Angeles (to 27 May)	1,947,610
Oakland	524,536
San Diego	324,536
Sacramento (to 27 May)	194,568
Pasadena	184,000
Stockton	90,305

Crop Prospects.
May closes with the prospect of available water for agricultural and stock for the summer months, as well as for mining and power.

Sugar beet acreage in old localities is much enlarged and new districts are being brought under cultivation.

The quality of fruit promises well. A large number of new trees will come into bearing this season and this will help to make the fruit crop a normal one, if not above normal.

Barley, wheat and oats promise well and are heading out strong. Hay also looks well, as does alfalfa, the second crop of which, in many places, is now being being cut, with good results. The bean acreage is enlarged. Dairy and poultry industries are thriving and are being enlarged to meet the home demand.

Farmers and fruit growers view the outlook quite optimistically.

Fruit Shipments.
Citrus fruit shipments to date are over 35,000 carloads, some 10,000 carloads ahead of last year at this time.

Cherry shipments are continuing and the fruit is bringing good prices; one carload brought \$5.55, the record price.

Apricot shipments are beginning well.

Industrial.
Building operations, public, railroad and private, are active and much new work is projected.

The window-glass works at Stockton will soon resume operations.

Transportation facilities are being largely extended on steam, electric and water lines. Four new steel bridges are projected across the Sacramento River, one at the capital city and three in Tehama county.

New companies for reclamation and irrigation projects are entering the field. Many new settlers are coming in. Business in general is lively and healthy. New hydro-electric power sites are being filed on and plants projected.

Gold mining, both dredge and quartz, is active and some good results are being had. Oil development continues and new pipe lines to the coast are projected. New uses for the product brighten the outlook.

A large exhibit of California products has been sent by the California Development Board to Turin, Italy, for display at the International Exhibition, now being held in that city.

Eighteen hundred and thirty-six new registrations of motor vehicles were made with the State Secretary of State during April.

Exports and Imports.
California's exports and imports continue to increase. Here is the Bureau of Statistics record for April, 1910, and April, 1911:

	April, 1910.	April, 1911.
Exports	\$2,257,815	\$2,450,717
Imports	\$4,789,296	\$4,978,368
Ten months ended April	1910.	1911.
Exports	\$27,296,199	\$36,107,022
Imports	41,608,893	44,981,004
Totals, ten months	\$68,905,392	\$81,088,026
Increase in exports	8,810,202	
Increase in imports	3,272,111	
Total increase	\$12,182,313	
Equal to a gain of over \$1,200,000 a month.		

Los Angeles's Imports.
Ten months ended April—

1909	\$1,042,866
1910	1,266,311
1911	1,552,719

San Diego.
Ten months, April—

	Imports.	Exports.
1909	\$394,498	\$338,304
1910	653,817	738,394
1911	689,943	862,945

UNCLE WALT.
The Poet Philosopher.
How dear to my heart was the trusty old dipper that hung by the pump in the brave days of old! It made a man, risky, contented and chipper, to drink from that dipper a draught sweet and cold. We came from the harvest field, where we'd been goaded by ruthless employers, and kept on the jump, and stood there and drank till our innards exploded, and blessed the old dipper that hung by the pump; that rusty tin dipper, that weather-stained dipper, that life-giving dipper that hung by the pump. But now, in the blistering heat of the June time, we go to the well with our tongues hanging out, and wrestle around that old pump all the noon time, in trying to drink a few drops from the spout. The bughouse germ doctors have banished the flagon from which we all drank when we met at the pump; no more can the boys get a hard-water jag on; the trusty old dipper has gone to the dump; the long-handled dipper, the mail-order dipper, the soul-soothing dipper has gone to the dump!

Los Angeles agents for "Vudor" Porch Shades—the only shades that are ornamental as well as effective. \$2.50 to \$6.50, according to width—4 to 10 feet.

Butterick Patterns and Publications for July are ready. Two years' subscription to the Delineator for a dollar-fifty.

Men's Silk 3 Pairs for \$1

Don't condemn them on account of the price—come expecting to find them equal to the best you have seen heretofore at a half dollar.

Made of pure thread silk, in black, tan, gray, heliotrope, Burgundy, navy and cadet blues. Three pairs for a dollar.

(Just inside Main Entrance)

Glove Sale Today

As advertised yesterday, two lots of kid gloves are to be sold today at surprisingly heavy reductions—\$4.50 long kid gloves for the girl graduates at \$2.95. And \$1.25 short kid gloves at 75c. No phone orders. None to be sent C. O. D. or on approval.

New Parasols At Half or Near It

(On Sale Tomorrow)

Real summer weather only just begun, and here are over three hundred new parasols at practically half the prices their duplicates are being sold for by the merchants who chose their stocks from this sample line.

Hardly two alike in the whole collection, so you may depend upon finding every shape, shade and material now in favor among careful dressers.

\$1 Parasols	50c	\$6.50 Parasols	\$3.50
\$1.25 & \$1.50 Parasols	75c	\$7.50 Parasols	\$4.00
\$2.00 Parasols	\$1.00	\$8.50 Parasols	\$5.00
\$3.00 Parasols	\$1.75	\$10.00 Parasols	\$6.00
\$4 & \$4.50 Parasols	\$2.25	\$12.50 Parasols	\$7.50
\$5.00 Parasols	\$3.00	\$20.00 Parasols	\$10.00

and so on up to the \$50 grade at \$25

In addition to the above there are about a hundred and fifty Silk Sun Umbrellas at about the same rate of reduction—\$4.50 for the \$7.50 grade; \$3.50 for the \$4.50 to \$6 qualities.

Every Suit and Half of The Smartest and H day--- a. m.

There may have been earthquakes down in Mexico yesterday that broke up some monte games and made a lot of persons go to church ONCE that never went before, but there was also one out at the ball park that forced some of them to think that there was nothing in this world but knocking.

There was a succession of shocks following each other in rapid fire order and the big racket came in the first two innings when the Oaks, jaded from a trip of 1500 miles on an Express train, got out into the ball yard and proceeded to lam the life out of Brackenridge. They rapped him so hard in the first two rounds that he chased himself to the bench as soon as Hitt could get himself ready to take his place.

As it turned out Hitt only had an idea he was ready when he went in to leave in the third inning, for in the next two the Oaks whanged him for as many as the Vernons got in the entire game. In fact before the Vernons began the score was 9 to 6 against them and it was just like trying to borrow money from some of your "friends" to get enough runs to make a showing.

Christian flung the ball for the Oaks and he always makes his games tire-some—that is, he makes the other fellows tired trying to get runs off him. The Tigers got him for 1 a swat but these didn't cut much Joe after the Oaks had made nine runs and eleven hits in four innings.

Hay Homan had his brand new black goat on the Tiger bench at the start but after the sixth inning when the Oaks were out of sight the poor dumb beast was led back to the clubhouse, weary of being called a Jonah.

Nine thousand and sixty-seven Vernon goats wouldn't have beaten Christian yesterday, however, for he had it on 'em. The Tigers had to bunch three hits in the fourth to get their first run on a double, the throw in of the ball and a sacrifice fly while the singles were necessary to get two runs in the eighth that were only an aggravation.

When Brackenridge started in the first inning the first three men up assailed him with singles. Pfl easily scored on the third hit by Maggett to right field. Brack took the throw in of the ball and when he tried to catch Maggett going to second he made a wild heave past McKune, Hoffman scoring and Maggett going to third. Zacher's sacrifice fly to left easily scored Maggett.

In the second inning after Mitze had singled, Christian forced Mitze at second. Then Pfl hit to right, Hoffman walked and Maggett scored the three runners with a double to right field.

This was enough for Brackenridge and Hitt took his place in the third. Two singles, a fielder's choice and a balk made another easy run in the third and a double, single and a sacrifice got the two final ones in the fourth. After that Hitt settled down and behaved himself and the Oaks did not get any more runs, probably because they did not need them.

The only two fielding features worthy of particular notice were long running catches by Wolverton and Kane. Wolverton getting Stimson's high foul at the bleacher fence after a fast sprint.

The score:

Truth About The San Diego Record

The

Edillac

"Thirty"

from Los Angeles to San Diego
in 4 Hours, 10 Minutes
the Fastest Time Ever Made by An Automobile
Between These Cities

The statement in The Times of June 7 that another car made the run in 4 hours, 8 minutes, is an error absolutely, not borne out by facts. The official registered time and which is on file at Chanslor & Lyons shows the record of this car was 4 hours, 10 minutes. This card is signed by Louis Wilson, Floyd Topping and W. D. Van Buren, city editor San Diego Tribune.

BY HILDA WESTERN WHEELER.

EVERYBODY knows that it takes money to get married, but everybody doesn't know that Joe Rivers, the scrappy little fighter who has made such a phenomenal rise in pugilistic circles, is piling up the green as well as a big "rep" for the one best bet that of changing the name of Miss Virginia Prouse to that of Mrs. Joe Rivers.

When is it going to happen? Well, if Joe disposes of Tommy Dixon Saturday and then vanquishes Joe Coster July 4, it will happen so quick that a moving picture machine would be too slow to photograph the proceedings, for they are deeply in love with each other.

To show what a dandy little girl Rivers has picked for a life partner, his manager, Joe Levy, said: "I would just as soon they got married tomorrow; she knows what it means for Joe to keep on at his best right now as he is head over ears in love he minds her better than anyone. That is really why the wedding is deferred until a little later, partly until after the fourth of July, so that nothing will detract his thoughts from the fight game."

Miss Prouse just came in from a tour of inspection of the new home which Rivers is having built for his parents. She is no less enthusiastic over the progress of the house than any of the rest of the family. As she said: "Some day they will be my family, too."

"FINISHED" AT BERKELEY.

Originally from Detroit she has been in Los Angeles for the last four years, and has many friends here as well as

MOTORBOAT IROQUOIS HITS LOG; CREW BARELY REACHES SHORE.

[BY DIRECT WIRE TO THE TIMES.]

SAN PEDRO, June 7.—[Exclusive Dispatch.] Warren D. Wood's motorboat, Iroquois, plowed into a log in San Pedro harbor yesterday afternoon and nearly sank. The boat began to fill rapidly and only by quick work on the part of the crew was it run alongside a large and kept on the surface.

Frank Garbutt and Matt Walsh were the rescuing party. As the craft came near the large they threw three slings under the stern just in time to keep the boat, which was three-quarters full of water, from going down.

The Iroquois has been undergoing repairs during the last week in preparation for the free-for-all race around Catalina Island Sunday. Yesterday afternoon Wood got it out of the shop for a trial spin. He started down the bay, but the boat, which was speeding along at nineteen miles an hour, hit a log. The propeller threw it up against the bottom of the boat

with a crash, making a hole a foot and a half square. The propeller, of special construction, was broken. In the boat with Wood were Coey Dunbar, owner of the Eclipsa, and Walter Allen, a mechanic. The craft began to fill with water. It was headed toward an oil barge lying opposite the city wharf. Garbutt and Walsh happened to be standing there. They were timing the speedster on its trial spin. If they hadn't rendered aid quickly the occupants of the boat would have had to swim as water was coming through the hole with a rush.

Wood had the craft again taken into shop and had ordered the work to be rushed night and day in order that he may compete in the race Sunday. The greatest difficulty will be in replacing the propeller, which is not of standard type.

Frank Garbutt, owner of Mystery, had his craft out for a tuning-up spin yesterday. He is getting ready for the race Sunday. It did not show a great amount of speed, but ran along smoothly.

Miss Virginia Prouse,
The power behind Joe Rivers's throne.

JOE RIVERS'S PRETTY FIANCEE IS REAL POWER BEHIND THRONE.

BY HILDA WESTERN WHEELER.

at Berkeley where she attended school for a year, just for the finishing touch," as she expressed it.

The story of Rivers, the man, reads just as good as that of Rivers, the fighter, and perhaps when the young lady said the word she thought of the old saying that a boy who is good to his mother is bound to be good to his wife. Joe is a little gentleman. He is a clean fighter and true blue in more ways than one. He is also steadily climbing the ladder that leads to the story of Rivers, the man, reads just as good as that of Rivers, the fighter, and perhaps when the young lady said the word she thought of the old saying that a boy who is good to his mother is bound to be good to his wife. Joe is a little gentleman. He is a clean fighter and true blue in more ways than one. Charity Doesn't Begin at Home With Mr. Wad. He Bought Some Pencils Yesterday, But Not From His Wife!

WHERE WE GET OFF.

BY J. ALEX. SLOAN.

match McCoy with some other good
light heavyweight or "white hope" at
Hammond, Ind., for the coming week.

Harry Forbes and Jimmy Walsh
have been matched to fight before a
club at Janesville, Wis., on June 15.

Both of these boys are popular in the
Middle West, especially Forbes, who
has not only come back, but has
whipped most of the bantamweights
in the country since he returned to
the ring.

Forbes is one of the Mayberry out-
fits that was run down by Uncle Sam
and cooped. Forbes admits that his stay
in the government training quarters
did much for him and probably gave
him back the fighting powers which
he possessed when he was regarded
as the greatest 115-pound fighting
machine in the world.

Milwaukee fight promoters would
like to see the battle between the
winner of the Rivers-Dixon fight and
Joe Coster, but Uncle Tom McCarey
has the bout as good as sewed up
and Coster likes the long journey
battle better than the shorter con-

test.

Kansas City and Memphis will also
want to see the Mexican if he wins
over Dixon. The latter is popular in
both places and while Rivers has
never been heard of much in either
spot, a victory over Dixon would
make him a big drawing card in both
cities.

Rivers is sure getting in good shape
for the coming battle. He realizes
what he is up against and that Joe
Levy is keeping him well in tow and
Joe has a lot of respect for any op-
ponent, especially if he has a punch.

Jimmy Clabby is about the most
popular fighter in the Middle West,
yet he keeps busy all the time. The
weight for this is the price he asks.
Jimmy will climb into a ring for less
money than any other fighter who is
regarded as a top-notch. Then
Clabby is not particular about the
weight of the man he faces pro-
viding the said opponent isn't too clever.

Clabby has the reach and the
weight of a middleweight or a light
heavyweight and he is clever enough
to beat any of the second-class fight-
ers. He also likes to bop around a
contest and there is no better fighter
in the game today to put into the
ring to fool the public than Jimmy.

He can make a sparring match look
better than a real battle any time pro-
viding his fellow will give him
half a chance.

Tommy Andrews, the clever Mil-
waukee matchmaker and promoter
who invaded Australia with a band
of American fighters, has sprung a new
stunt in the Middle West since his
return to his country. Tommy has
hit upon a scheme for a circuit of
boxing clubs and will book fighters
after the manner of vaudeville per-
formers. Any fighter that makes
good in Milwaukee will be given a
chance in Indianapolis, Memphis,
New Orleans and Kansas City.

He has always said that the ring
game would come to this point and
that as soon as it did the sport would
flourish in more cities than ever. Put-
ting the boxing game on the basis of
a business will tend to eliminate the
low brow and build up the enter-
tainment to a point that it has never
known.

REGATTA DRAWINGS; CORNELL GETS NO. ONE.

ASSOCIATED PRESS DAY REPORT.
NEW YORK, June 7.—Francis
Banga, chairman of the intercollegiate
rowing stewards, has announced the
drawings for the course at the Pough-
keepsie regatta on June 27.

In the "varsity" race, which is sched-
uled to start this year at 5:30 o'clock
in the afternoon, Pennsylvania has
again drawn course No. 1, while
Columbia moves up into No. 2. Sym-
cuse will be No. 3, Cornell No. 4 and
Wisconsin No. 5, on the outside.

With the tide at practically the
strongest point of the ebb, the out-
side crews will have the advantage
on a calm day, but if the weather is
rough, the heavy going will be out
in the channel and easy water in-
shore.

The freshman race will begin at
4:15, with Cornell at No. 1, Columbia
No. 2, Wisconsin No. 3, Syracuse No. 4
and Pennsylvania No. 5. The four-
oared race will start at 3:30 with only
four entrants. Syracuse will be No. 1,
Cornell No. 2, Pennsylvania No. 3,
and Columbia No. 4.

Methodists had adopted Rugby.
The proposition was a good one and
Bovard says it a Rugby team in Utah
might be a similar offer it would be ac-
cepted without delay.

R. E. Stanton and party left this
city for Fresno yesterday. Deer ses-
sion in Kern county opens July 1, six
weeks earlier than in this county, and
Stanton intends to be in the best deer
country in Kern county when the sun
rises, July 1.

Rugby football and the old style
game each will have about the same
number of teams in the field next ses-
sion, among the colleges and larger
schools in the South. In fact, by
putting nine on each side, most of
the larger schools are included.

U.S.C., U.S.C. Law School, Harvard
School, Los Angeles High, Polytechnic
High, Redlands High, San Bernar-
dino, Riverside and Pomona High are
to play the English game; and
Occidental College, Pomona College, Whit-
tier, University of Redlands, Throop
Institute, Pasadena High, Long Beach
Santa Ana and San Diego are slated
to stand by the old game.

Coch Ralph Noble of Los Angeles
High School intends to get back into
the tennis game with both feet this
summer. He says he expects to enter
every local tournament during the next
three months and as he is a good
racket wielder when in form should
be good for some snoring or more
troubles.

Yonkers Country Club is preparing
to pull off a tennis tourney the latter
part of this month. Unless some-
body gets busy there will be nothing
doing for the court brigade until the
Pacific Coast doubles tourney at Long
Beach, July 4. Several local play-
ers are planning to compete in the
Coast championships at Santa Cruz,
June 19.

The Los Angeles High tennis team,
including Wolf, Hogaboom, Warren
and Sheldon, is to meet the Poly-
technic High quartette on the Occi-
dental College courts Saturday after-
noon.

KID FITCHER'S RECORD.
TERRE HAUTE (Ind.) June 7.—
Arthur Neff, the young freshman
pitcher at Ross Polytechnic Institute,
in the season just closed, made a re-
cord which is believed to be unique not
only in college baseball, but in the
ranks of professional pitchers. He
was in nine games, pitching seventy
innings, allowing only seventeen hits
and eighteen runs, and struck out 161
batters. He was at bat himself forty-
seven times and of the twenty-two hits
which gave him a batting average of
.448, four were home runs.

GIANT CARL MORRIS.
ASSOCIATED PRESS DAY REPORT.
NEW YORK, June 7.—Joe Jean-
nette, the heavyweight who has been
engaged to teach Carl Morris, the
"white hope" a few things about box-
ing, has just returned to this city
after a several weeks' stay at Morris's
camp in Oklahoma.

"I think that Morris is the most
powerful one I ever saw," Jeanette
said. "He is a real fighter and he
has a reserve of power behind his
stroke, seldom hitting a ball as hard
as they can."

John G. Anderson, the former
champion of Massachusetts, has come
forward with some splendid sugges-
tions regarding the troubles which
will be found on every golf course in
the land. He suggests that on each
tee box a placard be placed which
would have on it certain rules. Among
other things, he says that on the
various holes there be printed the
ground rules, the penalty for going out
of bounds, the limits of the bunkers,
the fundamental rules governing ball
in bunkers, how the ball may be ad-
dressed and other necessary knowl-
edge, the definition of a water hazard
and other information which is of use.

There is no question that the av-
erage golfer is not conversant with
the rules of golf and even at times
the best of golfers show ignorance
of the fine points of the game. Per-
haps the one rule that is violated more
than any other is the simple
one that forbids the player to touch
the ground with his club between
shots. Many men go around a course
and hack it to pieces. Watching them
one sees a continual flight of turf
through the air. The result is that
bare patches and holes are found later
on, bad lies result and trouble fol-
lows for every man who gets into
one of the marks left by the careless
player.

Warren Howard, athletic manager
at U.S.C., has received an offer from
the University of Utah for a football
game between the Puritans and Mor-
mons in Utah next fall. The Utah
team plays the old game, however,
and when it sent the challenge to
U.S.C. evidently did not know that the

RICKARD OFFERS FIFTY THOUSAND FOR JOHNSON AND TWO MEN.

ASSOCIATED PRESS NIGHT REPORT.
SAN FRANCISCO, June 7.—Infor-
mation was received here today,
in a letter from "Tex" Rickard,
who is in Buenos Ayres, that Rickard,
who was the promoter of the Johnson-
Jeffries fight in Reno, July 4, will of-
fer a purse of \$50,000 for Jack John-
son to fight any two men in the world,
the same afternoon, in Buenos Ayres,
for the world's championship.

Rickard declares his belief that
Johnson can defeat any two men in
the world, one after the other.

"All I ask," he writes, "is that John-
son be given a rest of fifteen minutes,
after disposing of the first adversary.
The second fight will proceed imme-
diately thereafter. The fighters would

be taken on by Jack in the order mutu-
ally agreed upon. I do not care
who they are. Jack Johnson can beat
both in one ring the same afternoon
and with only fifteen minutes' rest be-
tween the bouts."

Kelly Gets Decision.
DAYTON (O.) June 7.—[Exclusive
Dispatch.] Spike Kelley of Chicago
was given the decision over Dan Ken-
ney of New York tonight. The police
stopped the fight in the fourteenth
round. Kelley scored Kenney four
times in the tenth round and again in
the fourteenth. Billy Wagner, Chi-
cago, and Charles Goodman, New
York, 124 pounds, fought fifteen
rounds to draw.

He is quick to learn and should beat
Jim Flynn on July 4 without trou-
ble.

"Morris is as game a man as ever
drawn on a glove. He loves to fight
and is only too anxious to get a
crack at the hard ones."

SUCH FOOLISHNESS IS
PAST UNDERSTANDING.
[ASSOCIATED PRESS DAY REPORT.]
NEW YORK, June 7.—A strike in
all the building trades, except the
household, employed in the New
York National League's Club's new
grand stands at the polo grounds, has
suddenly put a stop to the work of re-
building the historic plant and as a re-
sult the team may not get back on its
own field this season.

In such event, the playing of the re-
mainder of the schedule at the Ameri-
can League grounds is not unlikely to
prove a handicap to the club's pennant
chances.

The strike was the result of a dis-
pute between the structural iron work-
ers and the metal lathers, each claim-
ing the right to place the steel rod for
the reinforced concrete used in the
building.

WHAT AMERICANS HAVE DONE.
Walter Travis was the first Ameri-
can to convince the British that there
was good golf outside their own par-
ticular country, but he has been fol-
lowed by scores of others, who with-
out winning the title, have shown that
the U. S. A. was producing a good
brand of golfers. More than that,
Chick Evans and all the others who
have been playing the game in Eng-
land, "ave done much to make the
difficult American golf associations
respected in Great Britain. Their
opinions carry weight, and they even
have made the Royal and Ancient
Club of St. Andrew give way to their
claims. Were it not for the exodus
of golfers to the British tournaments,
where they hold up their ends so ex-
tremely well, this never would have
been possible.

SWEET MARJORIE, PENCIL PURVEYOR

Fair Actress Tells of Her
Selling Luck.

Tale of the Awkward Youth
Who Didn't Dare Ask.

Enormous Total of Girls'
Noon Sales at Levy's.

BY MARJORIE RAMBEAU.

Really, I hadn't the faintest idea as to just what I ought to do.

One I sold tags from an automobile, but that was hardly selling; they just crowded around and bought them of you. But selling pencils from the door is different.

I took up my position at the entrance of Levy's Cafe just about noon, with a bunch of pencils, a very awkward and foolish feeling and a great desire to do something for the cute little babies of St. Elizabeth's Day Nursery.

I wondered if I should ask people to buy, or if I should wait for them to come and buy, as a shop-keeper does.

Oh, how I wished for a little sign—"Pencils for sale!" If I'd had that, I believe I would have pinned it right on my waist.

Standing across the lobby from me was a very comfortable looking fellow who looked as though he had just oodles of money. I wanted to ask him to buy a pencil, but he stared at me so that I was afraid to even whisper anything.

Every minute I became more nervous for him to be my first purchaser—he looked as though he'd pay far more than the stipulated price—and every minute I became more uncomfortable certain that he wasn't going to purchase anything at all. He seemed rather nervous, too.

He kept pulling his coat down and his collar up, and fixing his tie, and taking his hat off and putting it on again, till he actually got into a perspiration.

Pretty soon he had me going. Just out of a sort of sympathetic nervousness, I guess, and the pencil I hoped he would buy slipped from my fingers, went down as I clutched wildly at it, and fell on the floor almost at his feet.

I jumped for it; he jumped for it. My hand hit it first, and his awkwardly closed over mine. I let go, hastily, and he picked it up.

"Will you let me buy it?" he whispered, all flushed, his face as red as a beet.

"Will you let me buy it?" he whispered, all flushed, his face as red as a beet.

"Will you let me buy it?" he whispered, all flushed, his face as red as a beet.

"Will you let me buy it?" he whispered, all flushed, his face as red as a beet.

"Will you let me buy it?" he whispered, all flushed, his face as red as a beet.

"Will you let me buy it?" he whispered, all flushed, his face as red as a beet.

"Will you let me buy it?" he whispered, all flushed, his face as red as a beet.

"Will you let me buy it?" he whispered, all flushed, his face as red as a beet.

"Will you let me buy it?" he whispered, all flushed, his face as red as a beet.

gave them back, until I could connect up with the wholesale supply. I don't know for sure, but I rather think the girls at Levy's beat the town, for their noon and early afternoon sale netted just \$160.65.

FIGHT WEARS BOY OUT.

Twelve-Year-Old Youngster Takes Twenty-five-pound Albicore Off Catalina After a Hard Battle.

AVAILON, June 7.—John Harris, 12-year-old son of E. F. Harris of Tucson, was today proclaimed the youngest light-tackle angler on record after he had brought to gaff an albicore which weighed twenty-three pounds. For his catch the boy was given a bronze button from the Tuna Club and a large donation to his savings' bank account from his father.

Although only weighing eighty-seven pounds himself, the boy angler is said to have fought his catch with a masterful hand for nearly three hours. After continuing the battle for over two hours, he refused to accept assistance, saying, "If it pulls me overboard I'm going to get it in by myself. Some day I am going to land a tuna, too!"

So fatigued was the boy after the fish had been gaffed that he collapsed in the bottom of the boat. Only the strong determination to beat his father's record of a twenty-five-pound fish spurred the boy on to finish the battle. With his little fingers cut and bleeding, he continually "pumped" and reeled in the slack line as fast as his strength would allow him to do so. Never once did he stop the fight. When the fish began to sink and to take out his line, he used all the methods known to experienced anglers to force the contest to a finish.

Several anglers who passed the launch Pearl, while the fight was on, six miles out to sea, say that the boy displayed wonderful staying quality and good judgment. The father is a banker and capitalist of Tucson.

LA PRINCE QUIT.

GENOVA (Italy), June 7.—The French aviator Le Prince, abandoned today his attempt to cover the course of the Paris-Rome-Turin race. He had planned to make an independent flight. At Genoa Monday, according to him, he met with a mishap and wrecked his aeroplane.

What Did We Tell You?

Several days ago when John Scott, Jr., of La Habra did his first day's work of something over 7000 points, he said that he had not started, and we warned the rest of you to look out for that La Habra boy because he looked like a corner.

Well he is coming. Just look at his score. He is running second to Burns with 23,975 points in about three days' work and the beauty about John's canvass is that he is not even convinced yet that he is fairly started. He says he is just beginning to lumber up now and to get into shape to make a real race of it.

However, La Habra does not get all the honors today, for Little Harry Miehle of Riverside made a clean jump from thirtieth to eighth place, with 8480 votes.

Leo Germain of Los Angeles also took a shoot forward and landed in fourth place with 15,421. Mrs. Cole dropped down to third place and Minnie Litchner to fifth.

L. O. Lieber went forward almost to the 7000 class, and from what Mr. Lieber says of his prospects you may look to see him among the leaders within a few days.

Today's list shows a very material increase all along the line, but the real business for the week will probably come in late Friday and early Saturday morning, and many are holding their subscriptions to make a grand weekly clean-up for the \$25 prizes.

The prizes of \$25 each to men and women every week are very attractive as they enable the winners to pay the expenses of their canvass each week.

Do Not Forget the Prizes for June

You will find them enumerated below. There are six of them, three each for male and female contestants, and all the points you receive this week or any week during the month will count on the monthly score.

SPECIAL ATTENTION is directed once more to the list of general prizes from that of \$12,000 CASH down to one hundred or more of lesser value.

SPECIAL ATTENTION is also directed to the fact which we have frequently and plainly demonstrated that EVERY PRIZE IS LISTED AT ITS REAL VALUE and for no more than its real value.

The Times' liberal proposition in the Greater Contest to allow the winners of houses to BUILD THEIR OWN HOUSES has put a new phase upon newspaper contests. It is another evidence of the validity of the valuations published, and the disposition upon the part of this paper to really give the contestants all that they earn, not in paper value, or in printed value, but in REAL INTRINSIC WORTH.

In the long list of prizes there is a great variety, and almost any one qualifying as a winner will be able to make a selection in his or her turn that will be satisfactory; and with our present list of contestants and our present list of prizes there will be something for everybody competing.

Today's changes in the score bulletin are apt illustrations of what we have been endeavoring to impress upon you from the beginning—that is, that anybody entering now or at any time has almost an equal chance with those who entered a week or two ahead of him.

The jumps made by beginners within the last few days have placed them away beyond others who entered earlier in the action and show conclusively that it is more a matter of personal and systematic work than it is the length of time engaged at it.

So get in this contest now for you have ample time to poll a great number of points and an absolutely even chance to win the weekly or the monthly prize.

Cut out the nomination coupon on this page and bring it, or send it to the Contest Manager today.

Special Prizes For the Month of June \$300

First Prizes\$75.00
Second Prizes\$50.00
Third Prizes\$25.00

One each of these to be awarded to the male and female contestants receiving highest number of Subscription Points.

\$50 For This Week

Ending at Noon June 10th

\$25.00 to Male Contestant
\$25.00 to Female Contestant

Receiving highest number—of Subscription Points.

Rules of the Times Contest:

All contestants agree to conform to the rules.
Any man or woman, boy or girl of good character residing in Southern California or Arizona, is eligible to this contest.

The Contest Manager reserves the right to reject any nomination.
No employee or member of the family of any employee of the Times is eligible.

All subscriptions to obtain credits must be paid in advance.
Subscriptions from newsdealers will not be allowed to be taken by any contestant.

Transfers of subscription from one name to another at the same address is not permitted.
Points will be credited at noon each day, (except Sunday) and vote announced in The Times of the following day.

No contestant will be allowed to participate in other newspaper contests while engaged on this.
The Times reserves the right to alter any conditions of this contest except to reduce the value of prizes.

Only One Nomination will be Counted.

HEALTHY HINT: If you feel an inclination...

LINK TO GULF IS FRISCO'S LEASE.

Gets Track for Its Through Line to Coast.

Double Track Programme of the Santa Fe.

Frisco-Santa Fe Combination to Los Angeles.

In connection with its new through service to Los Angeles and San Francisco, the St. Louis & San Francisco Railroad has made a contract with the St. Louis, Iron Mountain & Southern, by which the line of the Iron Mountain from Memphis to Baton Rouge, on the west side of the Mississippi River, will be used as a joint line for the benefit of both companies.

As first told in The Times last week the Frisco and Santa Fe railroads have entered into a joint traffic agreement which affords the former roads the use of the Santa Fe tracks from a connection with the Frisco line at Avard, Okla., to Los Angeles and San Francisco for freight and passenger traffic. Freight traffic is now moving under the new agreement and through fast passenger service will be started November 1. There will be through trains from three Mississippi River points, St. Louis, Memphis and New Orleans, to Los Angeles and San Francisco. The lease just made of the Iron Mountain tracks is for the purpose of making direct connection between the Birmingham line of the Frisco, which runs from northwest to southeast through Memphis, and its line between New Orleans and Houston, which runs through Baton Rouge. From Memphis the traffic will be over Frisco tracks by way of Springfield, Mo., to the connection with the Santa Fe at Avard. The terms of the contract made with the Iron Mountain provides that it shall run ninety years. The road is to be rebuilt with 55-pound rails and rehabilitated at an estimated cost of \$15,000,000.

The Cunard Steamship Company has made arrangements to extend its service to New Orleans, and by an agreement with the Frisco will route its Pacific Coast freight over the lines of that company.

Approval of the Frisco-Santa Fe traffic agreement and the increased traffic that will move over the lines of the latter company west of Albuquerque, it is believed that the spur will be applied to the programme of the Santa Fe to double track its lines in the Pacific Coast division. The Santa Fe has two and sometimes three main line tracks between Chicago and Albuquerque. The road is double-tracked between Chicago and Kansas City, and there are three tracks between Kansas City and Emporia, double track from Emporia to a considerable distance west of Newton. Besides there is an independent line from Ottawa on the Emporia cut-off where the line from Newton joins to make the line into New Mexico, and by way of the low-grade Helen cut-off to the main line at Albuquerque. Now all of the traffic from these various lines is handled on a single track line from Albuquerque to Los Angeles and San Francisco. The Santa Fe has ten miles of second track in operation from McCarty to Horace, fourteen from Rio Puerco to Suvance, one mile from Rio Puerco to Pavo, fifteen miles from Winslow to Coconino, City, six from Flagstaff to Ash Fork, eleven from Barstow to Daguerre, and from Barstow to Cottonwood on the Los Angeles line. Grading is completed for thirty-six miles of second track between Flagstaff and Suvance, and for thirteen and a half miles from Suvance to Fairmount on which track will be soon in operation. Practically 160 miles of second track built in use, and under construction, there remains 728 miles of main line track to be duplicated before the Santa Fe will have a double track system between Chicago and Los Angeles, to say nothing of the mileage from Barstow to San Francisco, 523 miles.

MEXICAN TROOPS MAY MOVE.

Inquiry was made at the office of the traffic department of the Southern Pacific Railroad yesterday concerning equipment and rates for the movement of 1200 Mexican troops from El Paso to Tijuana. The inquiry came from the office of the company in El Paso and stated that it was the purpose to move the troops over the Southern Pacific from El Paso to a connection with the San Diego line of the Santa Fe near Los Angeles, thence over the Santa Fe tracks to Lower California.

New Line to Mine.

The Santa Fe is to build a new branch line from Berry station, Ariz., which is six miles east of Kingman, to the foot of Stockton Hill, about eight miles. The line is to be built to carry ore from the mines. S. E. Wright of San Bernardino, has the contract for the grading.

Takes Over Short Line.

The Santa Fe has added a forty-mile railroad to its 10,000-mile system. It is the Garden City, Gulf & Northern Railroad, recently built from Garden City to Scott, Kan. The change became effective Sunday.

SALINAS TO COME UP.

"General" Francisco Salinas, a one-time leader of the army of insurgents in Lower California and now charged with robbery, will be arraigned before Commissioner Van Dyke tomorrow. The case was booked yesterday but word was received from Atty. Gen. Wickersham that the authorities of the Mexican government had not been heard from on the subject of his extradition, and suggestion that a show delay be allowed until they can be communicated with.

INVESTIGATING HIM.

The Federal grand jury is understood to be investigating the case of Salinas Salinas, who was captured at San Diego some days ago, while engaged in attempting to recruit a force to assist in the Mexican revolution. A number of witnesses, including three army officers, were heard at the body yesterday. It is likely that the grand jury will be ready to report tomorrow.

THE THEATERS.

(Continued from Fifth Page.)

clever with the rifle. Both of them pose as human targets. Elio, "The Human Band," is a feature that just about surpasses anything in the line of imitations that has ever been attempted. Elio, without mechanical assistance, imitates five band instruments at the same time, playing a tune in such a manner that one can hardly believe that he is not helped out by an invisible orchestra. His little German band number is the best of them all, and compelled him to respond to vigorous encores.

Meeker, nattie, debonaire and rapid-fire talker, and George Lavender, singer and acrobatic dancer, make up a team that for a quarter of an hour entertained the audience with original comedy. Both are old-time favorites in Los Angeles, but were never seen here together previous to this engagement. They separated from their old partners and formed this pleasing combination, which has turned out particularly successful.

Leona la Salle, a coon shouter with a voice just adapted to this line, has a splendid repertoire of songs and an appearance that helps to assure success.

The first-run pictures are well selected. Lots of comedy and diversity of subject make up the programme.

The Hyman Orchestra has had an addition in the shape of a cornet. This, of course, placed it on the plane of a regular vaudeville orchestra. They make fine music for the pictures.

HE WON'T STAY PUT.

Louie Chung, a Chinese, was arraigned before Commissioner Van Dyke yesterday on the charge that he had no certificate of residence. The defendant was deported several years ago, but refused to remain in China, coming right back to California. He now says that he lost his certificate in the San Francisco fire and earthquake. His hearing went over for one week.

SUICIDE OF GORMAN.

(Continued from First Page.)

understand it. He was always happy and most devoted. It is a dreadful shock to all of us."

Mr. Smith believes that Oliver became temporarily insane. He stayed home Tuesday night and sat up with his mother and himself until they went to bed. He was in his usual cheerful spirits.

Gorman and Miss Brown met accidentally at Venice. Gorman was walking along the strand when he was seized with a fainting spell, and fell. Miss Brown, who was nearby, rushed to his assistance, and was so sympathetic that the accidental meeting resulted in an acquaintance, then friendship and finally ripened into love.

Gorman has been employed at the Merchants' Bank and Trust Company about a year. He began as a messenger boy in a trust company more than four years ago and worked his way up rapidly. He was a good looking young man, with a splendid physique, and was particularly well dressed.

His parents came to Los Angeles from Minnesota nine years ago. Young Gorman attended high school and the University of Southern California.

HORSE STEALING ALLEGED.

John Larson, charged with obtaining \$75 under false pretenses, was arraigned yesterday before Justice Summerfield and his preliminary examination set for tomorrow. Larson is accused by Alfred Bestar of selling the latter a horse and buggy which he did not own. He was brought up from San Diego yesterday by Deputy Constable Benjamin, after arrest there by the city police. In default of \$1500 bond he was taken to the County Jail.

Los Angeles Police Department, in Battalion Formation.

at yesterday's inspection in Fiesta Park, showing about two-thirds of the force on parade. The motorcycle division, mounted men and automobiles were on another part of the field when the picture was snapped.

POLICE INSPECTION.

(Continued from First Page.)

In command of the first company, Lieut. Heath of the second, Lieut. Adams of the third, Sergt. Curtin, the fourth, Sergt. Johnson, the fifth, Sergt. Kennedy, the sixth, and Sergt. Murphy, the seventh, they proceeded to Main street, north on Main to the intersection of Broadway and then north on Broadway to First. At the station they assembled in the hall on the third floor for an informal programme of speeches by the Mayor and other city officials. At the conclusion of speaking Mayor Alexander was presented with a handsome miniature in a gold case.

The maneuvers were pronounced by the city officials present the best the department has ever shown. Drilled for many weeks, they carried through their programme without a hitch. The new uniforms make them appear more like army men than police officers and the caps are so well liked that the Chief declared that in the fall he would have them secure blue caps to go with the winter uniforms and discard the helmets entirely.

RUDE HAND NIPS ROMANCE.

Burglar Serving Sentence Drops Love Note from Cell Window, But Jailers Capture Tender Missive.

Romance, a bit of love and the long arm got into juxtaposition at the County Jail yesterday, when L. C. Sherwin, who is serving a sentence for burglary, conceived a desire to communicate with a girl of whom he had become enamored.

Sherwin found that on the side of the jail overlooking the Hall of Justice there was a small hole in the screen. He wrote a note, weighted it with a stick and a quarter dollar, and poked it through the bars and dropped it. The messenger boy who carries transcripts from the Hall of Justice to the courts heard a whistle and saw the flutter of the note as it came down.

The officer on watch saw it too, and swooped down upon it. Attaches of the Sheriff's office stated that it contained a design or diagram of the front of a building across the street, with a cross to indicate a window where it often sits a young woman for whom Sherwin is said to have conceived a long-distance fondness. He might have sent a letter out through the regular channels, though it would have been read by the authorities before delivery. The romantic idea apparently got the better of him.

Dr. E. Allen Test, accompanied by the superintendent of the California Penitentiary Timber Company, arrived at the Hayward yesterday after a four-day, ten-hour drive from Tulare in an automobile.

LIBERTY SHORT-LIVED.

Man Accused of Attempt to Poison Wife, Released on Technicality, Served with New Complaint.

Ralph Rafel, alleged by the police to have made an unsuccessful attempt to poison his wife and 6-month-old baby, was freed for a moment yesterday. He was unable, however, to take advantage of his freedom and escape, for a new complaint was immediately served upon him, charging the same offense.

Last Saturday morning a complaint was filed by Deputy District Attorney Keetch against Rafel, charging him with attempting to murder his wife. This was demurred to by Rafel's attorney. Monday last Police Judge Chambers heard argument on the demurrer, and yesterday ruled in favor of the defendant on a technicality. Keetch, however, immediately had another complaint ready for service.

This, when filed, was also demurred to on a technicality. Police Judge Chambers, after hearing the arguments, held it legal in every way. Rafel was then arraigned, and his preliminary examination set for the 21st inst.

PROTEST AGAINST RAISE.

Members of Improvement Association Appoint Committee to Ask Supervisors to Look Into Question.

Much indignation over the proposed raise of 45 per cent. in water rates was expressed by members of the Occidental Heights Improvement Association at their meeting Tuesday evening. A committee of five was appointed to ask the County Supervisors to look into the matter.

The company has given notice, it was stated, that after July 1 the minimum rate will be \$1.25 per 100 cubic feet, and 10 cents more for each additional hundred feet. The present rate, \$1 a thousand cubic feet, has been gradually boosted from the original price of 40 cents set for the same quantity.

A straw vote on the proposal recently taken to make Belvedere a city of the fifth class showed a heavy ballot against the proposition. It was unanimously agreed that annexation to Los Angeles would be preferable. A special meeting of the association will be held on the 21st inst.

Directors of the Rubber Goods Manufacturing Company, a subsidiary of the United States Rubber Company, yesterday in New York declared a dividend of 1 per cent. on the common stock.

LOOK OUT FOR "POISON OAK"

Simple Wash Recommended

Poison oak is said to be more virulent this season than ever before.

A wash of watergreen oil and other soothing liquids, known as D. D. D. Prescription, the great Eczema cure, has been found very effective.

D. D. D. suppresses the Poison Oak pustules and destroys the disease. Physicians advise having a bottle of D. D. D. always on hand.

Drop into our store for a trial size bottle at 25c, and we will show you proof of what D. D. D. has done. We shall not urge you to buy, but we will be glad to tell you all about this remedy. The Owl Drug Co.'s Stores.

Makes Food Taste Better

Ever notice how much better food tastes when well served and daintily garnished?

Pabst Blue Ribbon

The Beer of Quality

is a clean, fully aged beer. It gives a keen appetite for wholesome food. In its handsome package it adorns any table and it tastes even better than it looks.

Order a case today.

Marlborough Preparatory School

636 West Adams St.

Between Chester Place and Figueroa at Residence and day school; careful home training; constant advancement irrespective of grade limit. Physical development a specialty. Grounds adapted to outdoor life. Summer school, English branches, French, German, Spanish, music, sewing. Miss Ida B. Lindley, Principal.

Marlborough School for Girls

865 WEST 32ND STREET.

Spring term begins February 11th. Certificate awarded to college. Pupils under 14 not received. References from school last attended absolutely necessary if applicant is unknown to principals. Monthly lectures in French, with exception, by M. J. Jacquard, Auclair of the French Alliance. Catalogue sent on application.

MRS. GEORGE A. CARWELL, Principal.

MISS GRACE WILSHIRE, Associate Principal.

Belmont School

FOR BOYS

BELMONT, CAL.

(Twenty-five Miles South of San Francisco.) The school is trying to do for the moral and physical, not less than for the intellectual, welfare of each boy what a thoughtful parent must wishes to have done. Contributing to this end are the location of the school, removed from town and city, and distractions of town or city; the beauty and extent of its grounds, with the wide range of outdoor equipment, and the healthful and restful life. We are glad to have our patrons and graduates. For catalogue, booklet and further specific information, address: The Belmont School, P. O. Box 100, Belmont, Cal. (Harvard) Fall term opens Aug. 14.
